

City crews were busy stripping off the mortar coating Tuesday from the original North West Mounted Police building now located in the new Bridge Park on Sturgeon Road. The old station was originally located at 3 St. Anne Street from 1888 to 1896. It was moved Monday from behind the Senior Citizens Lodge in Lions Park. Plans at present are to use the log structure as an information kiosk.

Fire protection issue burns white hot

A fire agreement between the MD of Sturgeon and St. Albert is still as much in limbo as ever this week, with no sign of a compromise being reached.

Apparently a copy of a new tentative agreement between Sturgeon and the city had already been forwarded by the MD, but Monday Mayor

Dick Plain did not show much confidence in it.

The original fire agreement expired June 30, and then an interim fire agreement was drawn up by St. Albert and Sturgeon, but this "band-aid" solution will run out at noon September 1.

And the period that is worrying Mayor Plain is the

time between September 1 and September 6 when St. Albert holds its next full council meeting and hopes to deal officially with a possible new fire agreement.

For at least eight months St. Albert has been trying to convince the MD of Sturgeon that if it wants the coverage

More to filling in slough than meets eye

The filling in of a corner of the slough at the south end of Grandin Road has brought a strong reaction from the city of St. Albert this week.

Although the small section of water is owned by a private developer and was backfilled up to the property

line last week, Mayor of St. Albert Dick Plain expresses concern over the situation.

His concern is mainly on environmental grounds and the possibility that the city will have to tighten up the relevant bylaws to prevent similar actions taking place

in the future.

He told the Gazette that the city has made inquiries with the Department of the Environment on the impact

High school car parking is a problem

Student parking problems at St. Albert High reared their head at the St. Albert Catholic school board meeting (District #3) Monday.

And the board is expected to contact the city administration and the RCMP on alternatives that would cure the parking problems without forcing students to parking on the streets, possibly inconveniencing residents.

The student car and parking problem may stem from nothing more than showing off cars "with new

headers, and this in turn leads to something else," St. Albert High principal Clarence Kambeitz told the board.

According to the statistics given by Mr. Kambeitz there are about 410 students at the school between grades 11 and 12 who can drive cars and at anytime of the day there are 63 cars parked on school parking sites.

But the main problem seems to be more absenteeism among high school students and alcoholism, Please Turn to Page 2

Mayor Plain steps in to "save" Edmonton

After last week's "revolt" of smaller communities against Edmonton's possible gigantic future growth, St. Albert seems to have emerged as the finger-wagger to its large neighbour to the south.

The metropolitan committee of the Regional Planning Commission met August 17 and many of 19 communities outside Edmonton, including St. Albert, made it clear they won't allow Edmonton to have concentrated growth in the future.

After the meeting, St. Albert Mayor Dick Plain said that Edmonton Mayor Terry Cavanaugh was worried about how he might handle 6,000 pipeline workers, if a major pipeline was constructed in the region, as well as possibly 300,000 more people in the city by the turn of the century.

"We'll have to prevent them from injuring themselves," said Mayor Plain, who did not offer Edmonton much hope of getting its major growth policies through the Edmonton Regional Planning Commission.

That body's metro committee meets again August 26.

At last week's meeting, members of the metro committee of the ERPC turned down a growth option which would have seen Edmonton's population mu-

shroom to over 820,000 over the next 25 years.

The committee chose two plans, one which would decentralize growth to the outlying communities and the other which would try to preserve both agricultural land and protect the small town nature of the communities.

The planners, according to Mayor Plain are looking at the two plans as a composite strategy. "Some composite strategy seems to be the way," he said, "and the planners are running them through."

"By August 26 we'll have an idea of how the compromise looks like," the mayor added.

Commenting on the upcoming meeting August 26, the mayor said, referring again to Edmonton, "I think they'll lose on strategy A as badly as they did yesterday (August 17)."

Strategy A is basically for concentrated development of the highrise type in Edmonton, in anticipation of a flood of people back from the hinterland, following the crest of growth in smaller communities.

Four choices of growth rates and different lists of priorities were offered to the communities throughout the region.

The first plan would have seen Edmonton take up to 80 percent of the nearly 500,000 people expected to move into the area within the next 25 years.

The second option would be maintaining the status quo with growth spread out to all the smaller communities in the area.

Another category would be to centralize growth in three communities, St. Albert, Sherwood Park and Edmonton in an attempt to keep

Please Turn to Page 2

MD's general plan comes up in fall

The MD of Sturgeon's General Plan comes up for review this fall.

Adopted in 1972, the plan has to be reviewed every five years, on a regular basis.

A spokesman for the MD of Sturgeon said last week that Sturgeon had requested

the Edmonton Regional Planning Commission to provide staff for the revision in the fall.

The request has been granted by Norm Giffen, executive director of the ERPC.

A group of Flagstone area mothers, helpers and pre-schoolers got together on Wednesday morning for an outing in Lions Park. The get-togethers are a part of the city's summer playground program. The day's project was an intriguing one -- the baking of cupcakes inside orange peels!

white hot

Cont'd From Page 1

it is used to it will have to fork out about \$400,000. Presently, St. Albert is giving fire protection to a large part of the MD of Sturgeon from Calahoo to 50th Street in the east and on to Namao bounded by Highway 28.

It seems the burden of this protection, without further financial input from the MD of Sturgeon, is worrying St. Albert.

"People (in St. Albert) will not pay for fire services in the MD, we like them (the MD), they are our neighbours, but if the MD refuses to pay, we will not do it," said Mayor Plain.

The mayor said that another agreement from the MD was "across the desk" and that St. Albert was willing to sit down and talk. But he also claims that the MD has unilaterally drawn up another version of the old agreement.

What really worries the mayor is that, in the interim period from September 1 - 6, there might be a fire needing St. Albert coverage in Sturgeon.

"We will be in a desperate situation if St. Albert fights a fire in the MD of Sturgeon, if anyone sues us, I do not believe liability covers us, we are totally open to law suits."

Mayor Plain says that when it comes to a fire agreement, "the MD is like a ballerina drawing up a plan for a nuclear reactor."

But whatever the mayor's opinion about the fire agreement hassle, he says, "If the MD ratepayers raise it with the Minister of Municipal Affairs, I'd sure hate to see it happen."

Mayor Plain fears a million dollar suit, "yet people could be burning."

He says that the MD is answerable to its people since St. Albert is not subsidizing them anymore.

On the hassle he adds, "it's one of the lowest moments I have had in municipal government, it's (fire protection) an essential service."

He expects that a formal reply to the problem will

emerge out of the next council meeting September 6.

"As it stands, there is no basis that we would be paid for any work that we might do," he added.

On alternatives for fire protection in the MD the mayor commented that Edmonton has indicated it does not want to go further than 10 miles out.

And he terms a pumper unit kept by the MD in the St. Albert Fire Department as of little service to St. Albert, (even if it remains.)

Reeve of the MD Bill Flynn confirmed that Sturgeon had sent the agreement down to St. Albert "last week" and is awaiting its signing.

He added that he hates to comment on the situation "till we get the results."

But the Reeve continued that if the agreement is sent back without being signed, "then I am prepared to publish it in the paper and get some comments at that time."

He also said that "we have some good possibilities as to alternatives if St. Albert does not want to co-operate."

The Reeve claims that St. Albert's fire budget will remain the same "whether an agreement is signed or not."

steps in

Cont'd From Page 1

agricultural land from being developed.

The final option was for industrial growth in Edmonton, Sherwood Park and St. Albert as well as a smaller concentration in Leduc and Fort Saskatchewan which would attract urban growth to these centres.

During the discussions which lasted all day, Norm Giffen, executive director of the ERPC told members that all the technical work has been done on the growth studies.

More than 1,500 pages of printed material has been published since the study got underway in 1974.

In the afternoon session, which dealt with a choice of one or more options presented, Tren Cole, the provincial representative from the business development and tourism department warned members they were channeling their decision into one specific area.

He said they should be looking at several different paths which growth might take in the region.

slough

Cont'd From Page 1

of the "right" to fill in the slough, and the possible interference this might have with water courses in the locality.

The mayor alleged that trucks which were filling in the slough had damaged curbs as they took dirt from the site for the GM dealership near Gervais Road.

Mayor Plain indicated that his main concern was to tighten up existing bylaws to "prevent any additional filling in of environmentally sensitive areas in the future."

The slough is well known for the bird and animal life that it attracts, like musk rats and ducks.

Presumably, if the city tightens up its bylaws, there

LEADERS and co-ordinator of a program which climaxed in a trip to Seba Beach for local handicapped children were glad to deliver their charges safely back to their parents in St. Albert Friday, just outside the Kinsmen Community Centre. Co-ordinator of the program was Jayne Welch of Edmonton and leaders were Janice Jobber and Roma Dobrowsky of Ontario.

would have to be approval for "major earthworks," even if the land was privately owned.

Mayor Plain calls the situation at the slough a case of another major mistake in past planning, with St. Albert having allowed the land to be subdivided.

"Under present day legislation none of this would be tolerated," the mayor said.

The land around the slough is zoned special development control and the design brief for the Ball Estate calls it suitable for

higher density development of the multi-family type.

But the mayor pointed out that the city does not want higher density development in the area at the expense of the slough.

He said that the city had asked that the dumping of earth stop, "but I think they were more or less finished."

"We hope to meet with the gentleman to [bring] an amiable resolution of it, but we do not want to wave a big stick at individual property owners in the community," Mayor Plain concluded.

parking

Cont'd From Page 1

according to the principal.

He suggested "We are looking at this more seriously than in the past."

Mr. Kambeitz also suggested to the board that to have no parking at all would be very difficult, "we have to do something about parking as it presently exists."

Mr. Kambeitz has sympathy with the city's fear about the results of off-site parking. "I do not want to go

on off-site parking," he said.

Acting chairman of the board Peter Freeman said there were a lot of questions in his mind (on solutions to the parking problem) and he knew Mr. Kambeitz would like to get them solved "when classes start."

A car accident between two students recently at the school seems to have given priority to introducing more controls at the high school parking lot, such as speed bumps.

But Mr. Freeman pointed out that buses would be scared they'd fall apart, (if the bumps were introduced).

Using a hand crank to manually open the canopy of the T-33 jet trainer aircraft is LAC Steve Barr from 533 St. Albert squadron. Lt. Lazuk, course instructor explains the operation of the canopy to Steve. The T-33 is part of the equipment used by the cadets who take the aircraft systems course at air cadet summer camp at CFB Penhold, Alberta.

The commanding officer of #533 squadron, Major Floyd Maybee helped to secure the T-33 jet from Northwest Industries in Edmonton. The aircraft is a scraped version of the one used by the Canadian Armed Forces. There are more than 500 cadets from across western Canada in attendance at the summer camp.

Cyrille Cloutier dies at 85 years

A well known and respected oldtimer of St. Albert and district, Mr. Cyrille Cloutier died August 22 of heart failure. A resident of Youville Home since 1973, Mr. Cloutier had been in failing health for some time. He was 85 years old.

Prayers will be said in St. Albert Roman Catholic Church this evening at 8 p.m. and Father Maurice Lafrance, assisted by Father L. C. Latour will officiate at the Mass of Resurrection in the St. Albert church at 10:30 a.m. Thursday morning. Music will be provided by Mrs. Bertha Kennedy at the organ and Mrs. Doris Tellier, soloist. Three of Mr. Cloutier's grandchildren will give the readings, Raymond Laforce, Carmen Cloutier will read the lectures, and Marcel Sale will read the intentions.

Interment will be in the church cemetery and luncheon will be served in the church hall following the services.

Mr. Cloutier took an active part in community life, serving as a school trustee for 30 years and as a church trustee for 32 years. For 20 consecutive years he acted as a census taker and became known to a great many people in the area.

He was of the original founders of a senior citizens group in St. Albert from when they first began meeting together in the Grandin Clubhouse. Both there and later when they met in the St. Albert Community Hall, Mr. Cloutier was regularly in the habit of picking up older folk who did not drive to take them to meetings.

From 1967 when the people of St. Albert became seriously interested in getting a district hospital located in the town, the project was dear to Mr. Cloutier's heart. And when a petition for the provincial government was organized he would come almost daily to pick up forms at the Gazette office. Then off he would go on foot with his forms on a clipboard and his pen, knocking on doors throughout his Mission Park area and gathering the support of residents. Right up until recently he enjoyed walking outdoors in all kinds of weather.

Mr. Cloutier, an avid supporter of the Liberal party, also took a keen interest in politics at the provincial and federal level

CYRILLE CLOUTIER

and enjoyed nothing better than a lively discussion on the political issues of the day.

Mr. Cloutier was born October 14, 1891, in St. Albert, Ontario, the son of Joseph and Eglantine (Charlebois) Cloutier. His parents were farmers and in 1906 they came to St. Albert, Alberta with their three sons and one daughter, settling first on the land just north of St. Albert which is now the Chevigny property.

In 1911 Cyrille took out a homestead at Pickardville and three years later he married Rose Anna Cote who had been born in County Brompton in Quebec and had moved with her family, first to Massachusetts, U.S.A. and then to Morinville in 1909. The couple were mar-

ried in St. Jean Baptiste Church in Morinville and in 1920 they moved from the Pickardville homestead to a farm northwest of Morinville, where they remained until their retirement in 1959. At that time they bought a home at 3 Mont Clare Place in St. Albert.

The couple raised 14 children, six boys and eight girls and would have marked their 64th anniversary next April. They celebrated their golden wedding anniversary at a gathering held in Edmonton, and in 1974 they marked their 60th wedding anniversary with an especially happy party held in the church hall, surrounded by their large family and many friends.

Mr. Cloutier is survived by his beloved wife; five sons, Paul of Legal, Henry and Fernand of St. Albert, Hector of Edmonton and Raymond of Calgary; eight daughters, Mrs. Victor (Jeanne) Douzich of St. Albert, Mrs. Alberie (Louise) Laforce, Mrs. Arthur (Alma) Laforce and Mrs. Lucienne Mahe, all of Edmonton, Mrs. Fred (Gertrude) Roy of Prince George, B.C., Mrs. Lionel (Germaine) Roy of St. Albert, Mrs. Frank (Rita) Sale of Morinville and Mrs. Roland (Irene) Caouette of Prince George; 82 grandchildren and 61 great grandchildren. He was predeceased by his son Philip in August of 1948.

After standing near the corner of Mission Avenue and Perron Street for as long as anyone can remember this old house disappeared in one day under the assault of a bulldozer last week.

RCMP track down young thieves

Two local juvenile boys will appear in juvenile court at St. Albert on September 1st on charges of possession of stolen property. The two youths were found in possession of two bicycles valued at approximately \$300 near the Bruin Inn by an RCMP member on patrol. The youths were checked at 11:30 p.m. on June 21, and an investigation of the serial numbers and description of the bicycles revealed that they had been stolen from the Grandin area.

The local detachment was also successful last week in recovering two bicycles valued at \$250 which had been stolen early in June and July this year. One of the bicycles

had been repainted a different colour. A local 14 year old boy was found in possession of the two bicycles, although no charges are being laid.

A 15-year old St. Albert youth has been charged with possession of four power tools which were stolen from a contractor with an Edmonton-based electrical contracting company. The power tools are valued at approximately \$1,000 and had been stolen during the night of July 17-18. The tools consisted of a jig saw, a hammering tool, a nail gun and a fastening systems tool. The youth is to appear in juvenile court in St. Albert on September 7.

The seniors were bound for Drumheller, where they were to explore the area and stay overnight. This is the first such overnight venture for the local Senior Citizens group.

Father Lacombe Museum inspires tourists

"Inspiring," commented two Alabama tourists on leaving Father Lacombe Museum.

The Montgomery, Alabama couple, driving to Vancouver, were among 4,500 recorded persons who have viewed the museum since January.

The guest book allows an authoritative count, "but not all visitors will sign," noted attendant Cathy Holden. Attendants Barbara Cushing and Robert Behiel have also noticed dismissals of the guest book.

Especially inaccurate, Robert believes are the lists for August 2 and August 14. The

museum was visited on the first date by pilgrims to Lac Ste. Anne and to Our Lady of Lourdes at the St. Albert Catholic Church grotto on the second date.

In the current guest book, with its first signature dated August 7, 20 countries are represented. They include Israel, Chile, Portugal, France, Italy, Yugoslavia, Philippine Islands. For Canada, only the Yukon and two maritime provinces lack emissaries.

Interested viewers average about 15 minutes in the museum, Cathy estimates. "Some persons may spend even longer," she said, "and

others -- well, museums just aren't for them. They're in and out again in five minutes."

Some visitors, the attendants recall, were disappointed that in renovation, artifacts and photographs attached to the exterior walls of the chapel and the interior walls of the brick coverture were removed.

Cathy, Barbara and Robert then explain that Heritage Officer Arlene Borgstede has catalogued these articles and carefully stored them for more suitable display in a larger, future structure.

For Cathy and for Barbara and Robert, "meeting people of different cultures" and absorbing fragments of St. Albert history have been among the dividends of their summer employment at the museum. This summer is Barbara's second at the museum. A Paul Kane graduate, she enters University of Alberta in September. Cathy, the only full time attendant, has completed two years of study in social work at Mount Royal College, Calgary. Robert enters grade 10 at St. Albert High in September.

In addition to greeting the visitors, the attendants direct them to other points of interest. These are the grotto, a replica of the Grotto of Lourdes, France; the crypt, which contains the tombs of Father Lacombe, Bishop Grandin and Father Leduc; and the Oblate cemetery. They sweep, dust, clean the glass of the exhibit cases and maintain a daily stock of booklets, pennants and post cards.

Since Dominion Day weekend they have opened the museum at 9 a.m. and closed it at 9 p.m. Their last day on duty will be September 5. The museum then will be opened only by appointment until removal in spring to its new location east of the main church parking lot.

Around Town

Father Maurice Lafrance is back at St. Albert Parish after an absence of almost eight years, and "Very happy to be back in the old stamping grounds," he said. He also noted that the quarters were now much better, and is enjoying a "very functional" rectory. Father Maurice went to Duck Lake from St. Albert, moving after two years to North Battleford, Saskatchewan. Then it was back to Alberta for a year and a half at St. Joachim's in Edmonton. Delmas, Saskatchewan was next, followed by two years of service at Green Lake before returning to take up his duties in St. Albert on August 2. His many friends in St. Albert have noticed quite a change in his shape - for the better they seem to think.

Pipeline gets charge from northern lights

The aurora borealis or northern lights may be turning the Alaska Pipeline into the largest electrical conductor ever constructed.

According to researchers at Alaska's Geophysical Institute, those flickering lights in the sky could turn the 800-mile pipeline into one long conductor of electrical energy. The charged air interacts with the magnetic field of the earth, and could induce surges of up to 1,000 amperes of electric current in the pipe.

Because this process could result in faster corrosion of the steel pipeline, Cables carrying both a positive and negative charge have been attached at points where the pipe enters the ground. It was previously thought that the lights affected only compasses and radios.

It is not only the polar regions that are affected by the lights. When the Roman army first spotted them in the first century A.D., the philosopher Seneca reported that the troops "hurried to the succor of the colony of Ostia, believing it to be on fire."

Even before that, the Carthaginians recorded see-

ing the sky ablaze in 202 B.C. According to the Medieval Europeans, the glow was the flames of battle fought by ghostly armies in the sky. To a 13th century Norwegian, the displays were the reflection fires encircling the edge of the flat earth.

The 300-mile-wide belt that encircles the magnetic north pole is the area where the northern lights are most visible. This encompasses Greenland, Northern Norway, Alaska and Canada.

A similar phenomenon occurs in the Southern hemisphere, namely, the Aurora Australis. These lights are seen in Antarctica and the surrounding oceans.

EMANATE FROM SUN

Scientists have found the play of lights intensifies during sun-spot activity.

As the sun revolves on its axis, it throws off streams of electrified particles that sweep millions of miles into space. When these streams shower the earth's atmosphere, the particles--travelling at speeds estimated at 400 to 600 miles a second--are drawn toward the magnetic poles.

The collision of these high-energy electrons and protons with atoms of rarified air in the upper atmosphere creates the colorful auroras. Molecules of nitrogen and hydrogen emit violet, blue or red hues, while oxygen produces green and red.

Telescopes, rockets, jet planes, and satellites have been used to probe these airborne ribbons of color. Now geophysicists think the trans-Alaska pipeline may become an instrument reflecting the voltage of the aurora borealis.

THE WORKERS SWEATED out in the heat last week to get some of the drainage piping into a ditch which forms part of the Sir Winston Churchill Avenue four lane widening project.

Around Town

Peewee and Pearl Quintal, curling with son Ticker and Marilyn won the Pentiction bonspiel last week. This is the third time they have played in the event and their second time to win the top prize. They were beaten in the final the other time by Ray Osborne and his rink. Hec and Helen Gervais, curling with Casey and Betty Anderson also got into the prizes. Other St. Albert

curlers on the scene were Gerry and Shirley Fisher and two stray golfers from Emery's Pipe Shop and the Gazette turned up to urge on the winners. Belke and Jamison refused to divulge their golf scores, but we hear via the grapevine that Belke in particular contributed significantly to a sing song and knows the words to a prodigious number of songs.

The Gazette REFLECTS BELIEFS The Gazette

ST. ALBERT AN "I'M ALL RIGHT JACK" CITY?

It is all very well for St. Albert Mayor Dick Plain to tell Edmonton how to manage its own affairs as that city faces great growth as the economic upswing of Alberta continues.

And St. Albert is bound to cash in on it if that growth does go on.

Last week the metropolitan committee of the Edmonton Regional Planning Commission turned down a growth option which would have seen Edmonton's population grow to 820,000 over the next 25 years - not a large city by any means.

If Mayor Plain were to turn his "hard nosed analysis" to Edmonton's situation, he would undoubtedly have to admit that Edmonton should fill in its available spaces for best use of available transportation and for economic viability.

In fact is that not what the St. Albert mayor is presently doing as the space in Grandin area is planned for an additional 17,000 population?

There maybe nothing wrong with Mayor Plain taking the paternalistic attitude that he must stop Edmonton from hurting itself by taking the high density growth option.

But there is a little of the tongue in cheek attitude about the Mayor's Messianic intentions for the big boy down the road.

Mayor Plain basks in the comparatively comfortable municipal atmosphere of what is still basically a small dormitory town, and perhaps when the pressure is off on his own beat, there is the natural temptation to jump in and dictate or suggest policies for Edmonton.

St. Albert, let it be said, does not have the variety of "types" that one associates with the really big cities of Alberta or the rest of the country. Its main quality is that it is a delightful place to come back to after a frustrating day pushing around Edmonton, with its traffic and people problems.

It would be hypocritical if Mayor Terry Cavanaugh had not opted for the high density approach in Edmonton, which must be able to provide housing to match the lining of all pockets.

St. Albert is the last place on earth that anyone on a low income would want, or could possibly place roots in; the prices for low income families, or those who are on social assistance are placed too high to be within reach.

So the magnanimous larger cities are left holding the baby.

If St. Albert is going to remain a city, [and it becomes more and more obvious that its change of status from town to city was a political stratagem and not a genuinely historic plan], it must take it upon itself to provide housing for the less fortunate of society.

On that logic, St. Albert is also going to have to put a lot more in the way of high density, cheaper housing into the community as the years go on, otherwise the name city will become a joke.

Way back in the mists of 1974, a certain St. Albert alderman was cornered about when might St. Albert be like other big towns and have a proper indoor theatre for movies, drama and the like?

The reply from that alderman has also sunk unrecorded into the mists of history, but still St. Albert is afflicted with dormitory townitis; there is just no place to go for a lot of young people at night with the result that there is a high degree of vandalism characterized in the community. Witness the terrible vandalism at the Roman Catholic cemetery at the beginning of July.

No one yet knows who did the vandalizing at the church site, but one of the causes might have been boredom; someone with too much time lying on their hands might have got out of control.

On a positive note, St. Albert is justified at protecting its unique status and quality, but it is not really justified in taking pot shots at Edmonton in an area where it is least qualified to make them.

And keeping positive, St. Albert has managed to get on stream an arena and swimming pool for those with more "action" interests.

Billboard

SUNDAY, SEPT. 11 - Back-to-Backs Family barbecue in Lions Park. Tickets are now available from any member of the St. Albert Lions Club. The Lions would welcome help any evening this week, when they will be at work restoring the park.

6 - ST. ALBERT & STURGEON GAZETTE, WEDNESDAY, AUGUST 24, 1977.

to the Editor

Policy and maintenance help needed at Lions Park

I am writing this letter to attempt to explain the present situation at the St. Albert Lions Park.

The St. Albert Lions Club are the beneficial owners of the area of land that runs east from the railway trestle to the Senior Citizens Recreation Centre and north from Sir Winston Churchill Avenue to the Sturgeon River.

The St. Albert Lions Club members have attempted over the years to maintain the park in an acceptable fashion for use by the citizens of St. Albert. Many man hours of hard work and thousands of dollars have been poured into the park. However, it certainly isn't apparent today.

I could offer countless

versions as to why the park has degenerated into its present state; suffice it to say that in the past we have not been able to get the support to maintain or police the park.

We now have an agreement between the City of St. Albert and the St. Albert Lions Club which states in effect that the City will maintain the park and our club will provide capital. To give you an idea of the effectiveness of this arrangement, I'll state an instance. Last week, I phoned Bob Byron at City Hall. I asked Bob if he could help. Our water fountain was causing a very sloppy condition because it was leaking and needed proper drainage. Within 48 hours our fountain

had been repaired and I'm sure no one need get their feet wet to get a drink anymore. Thanks to you and your staff Bob. If this is an indication of the support we can expect from the City, then we can look for much improvement.

What we need now is some assurance from our local police force that they will ensure that the park is not continuously vandalized.

This week there will be a great deal of activity in the park. The Lions will be much in evidence with paint brushes, etc. to perform a much needed face lift, as well as erect three totem poles.

Concerned about the park? Why not come down some

evening this week and discuss your concerns with the Lions members, better still bring along a rake, paint brush, hammer, etc. and while you are offering suggestions and criticisms, help us restore the park.

Let's show the City Administration that we really care and give them some indication as to how we expect our park to be maintained. See you in the park.

P.S. Get your tickets for the Back to the Backs Family Barbecue to be held in the park September 11? Tickets available from any lion.

Lawrie Turner
President,
St. Albert Lions Club.

Ignorance can lead to tyranny

Enjoying a meaningful and fruitful life presupposes living under a system of government that guarantees our freedom to CHOOSE the kind of life we wish to live.

Although many of us prefer to remain aloof from politics, we should at least be AWARE of the great forces that really do exercise control over our lives and the way we live them.

It is in the region of ignorance that tyranny begins. I feel that everyone

should at least take the time to read one of the basic primers that exposes the International Money Manipulators and the power they callously wield over our lives.

Dan Smoot, former assistant to FBI Chief J. Edgar Hoover, said of one of these books: "NONE DARE CALL IT CONSPIRACY is an admirable job of amassing information to prove that communism is socialism and socialism is not a movement of the downtrodden but a

scheme supported and directed by the wealthiest of people."

Copies of NDCC, not available in most bookstores, can be obtained for \$2 or less from the Canadian League of Rights, American Opinion Bookstores, or from Freeman Services, Box 858, Raymond, Alberta.

All that is necessary for the triumph of evil is that good people everywhere do nothing. We are free to live the lifestyle we choose only

because our present system of government allows us to be. This book, and others, vividly demonstrate that the system is being threatened.

There is a very clear and present danger to our freedom of choice. We MUST become informed if we are to retain our RIGHT to live as we choose. NOW is the time to act.

MARCEL DEMAS,
Raymond, Alberta.

Lougheed attacked on land resale issue

I am an owner of 160 acres of land in Alberta. Recently, the Alberta government proposed legislation to deny me and thousands of other Albertan land-owners and farmers the freedom to sell our property to non-residents of Canada. The passage of this legislation will mark the beginning of the final stage to nationalize and take over the complete ownership of all privately-held lands in the province.

The essential requirements of ownership of land, or any other asset, is that the owner must have control over its use and its disposal. The Lougheed government has already taken away from myself and every other owner of land in Alberta the right to control the use of his land. The final stage is now for government to take away the owner's right of disposal of his land to whomever he pleases. Without control over

use and disposal, the owner is reduced to a tenant on the land he occupies. He is an owner in NAME ONLY. His Deed saying he is an owner is nothing more than legal fiction.

Premier Lougheed is a socialist. The ideas for much of his past legislation are straight out of the books written by Karl Marx. Like all believers of the socialist philosophy, he is totally committed to the principle that the government should own and control all land and assets and that everyone within his province works for the government and not himself. Lougheed sincerely believes that by stripping away ownership rights from myself and all Alberta citizens, he is acting in our best interests. As a politician, the Premier also realizes he will not be able to, quickly, accomplish this goal of reducing Alberta land-

owners to tenants. He must move slowly and cautiously. By doing so, he will have a better chance of people accepting the socialist proposition that the government should own all their land. This slow movement of control and takeover can be seen happening with Alberta land use laws, as they become tougher and more involved. The same fate awaits land disposal laws, as they are accepted, and expanded upon.

Most cattle ranchmen and farmers have worked all their lives on their own land and most everything they have is now tied up in the value of their farms. These farmers will now suffer losses as the value of their assets gradually diminish, because the Alberta government interventionist laws will not allow them to acquire the true, free market value of their pro-

perty.

The Lougheed government is cruel and immoral when they deny men the right to trade freely and honestly with each other and thereby acquire for themselves, all the benefits that result from their own individual labour. In a free country, government is entrusted with protecting the property rights of the individual. Peter Lougheed is once more demonstrating to all that he is fully prepared to violate this trust, in order to accomplish his socialist programs.

This legislation concerning the ownership of land will never be acceptable to me or other Canadians who believe in individual freedom and should be vigorously opposed.

MARVIN LEE,
Thornhill, Ontario.

Proposed "death" tax on life insurance

In the Federal Budget of March 31, 1977 and in the Bill introduced in the House on June 15, 1977, there were a number of changes affecting taxation of life insurance policyholders, beneficiaries and companies.

Basically, this is a tax imposed on a policyholder on the excess of cash value over premiums to be levied at the time of death. Adjustments are provided for dividends or proceeds from policy loans. Since 1969 this type of tax

has applied to life insurance policies when surrendered for cash but is now being extended to death benefits.

The Canadian Life Insurance Association says, "we were distressed at the time the budget came out at the idea of any tax at the time of death. This concept runs counter to the whole purpose of life insurance and takes money away from beneficiaries - usually widows. As far as we know no other country imposes such a tax at

death.

"In Canada, the public is being relieved of inheritance taxes. The federal estate tax has been repealed as have the succession duties in seven of the provinces. It may therefore seem odd to Canadians to find part of their insurance proceeds exposed to this new type of tax."

"The bill provides a limited exemption, up to \$10,000, on the gains in a life insurance policy at the time

of death. The exemption could be used for the final tax return of a deceased policyholder. Any unused exemption would be used by the spouse if the latter owned a policy on the life of the deceased."

The \$10,000 exemption does not change the view of the CLIA that the whole concept of this tax is wrong because it will usually fall at a time of financial crisis resulting from the death of the breadwinner.

A Look at Other Centres

ENVIRONMENT CENTRE EXPANDING IN VEGREVILLE

VEGREVILLE -- W. J. Yurko, Minister of Housing and Public Works, announced a tender award for the construction of phase 2 incorporating the main laboratory building, Environmental Laboratory and Research Centre, Vegreville to Poole Construction Limited for \$14,193,762. The first phase was a workshop and storage building which houses equipment for land reclamation studies.

The laboratory building with a gross floor area of 180,000 square feet will house environmentally related activities of the department of the environment, agriculture, energy and natural resources, parks, recreation and wild life, the occupational health and safety division of the department of labour and the research council of Alberta. The laboratory will provide facilities for the inter-disciplinary and co-ordinated management of research among the participating departments. It will be divided into four wings each housing a group of scientists whose activities are functionally related: technology, animal science, chemistry and biology.

ECONOMIST APPROVES RED DEER DAM SITE

A report in the Red Deer Advocate quotes Dr. Don Seastone, head of the University of Calgary's economics department, as stating that the Alberta government made the right decision in approving a \$61-million dam at Site 6 on the Red Deer River. In an interview he said the dam will prove to be of "real economic benefit" to Alberta. Seastone completed a cost-benefit analysis in 1975 for the Department of the Environment on the dam's economic impact on the area. "A steady guaranteed water supply is vital to heavy industry," he said, "and if the government is to encourage industry in the Red Deer River basin, then a dam is an excellent option."

The science advisory committee to the Environment Conservation Authority was highly critical of Dr. Seastone's analysis and the authority recommended off-stream storage as a cheaper and equally effective alternative to the dam. Seastone said this case is impossible to prove without doing detailed studies and cost analysis of creating the storage sites.

STUNTS IN THE NAME OF ART CALLED ABSURD

A Reuter report from London quotes Michael Roberts, a member of the British Parliament as saying "silence may be golden but paying a man to walk mutely around a pole for 90 minutes in the name of art is absurd."

Mr. Roberts was protesting against a whole series of called "artistic" firsts, whom he hopes will not be repeated. After the mute pole-circling performance at a London art exhibition, an Irishman charged a wall with his head and a performer stood motionless for an hour while holding a wooden railroad tie above his head.

The exhibition organizers say the Irishman was demonstrating how quickly man's creations can be destroyed, while the motionless performer was symbolizing a decay of the Welsh language a couple of generations ago.

PEACEFUL SOLUTION SOUGHT FOR HOG WAR

Mr. Roberts described the exhibition, funded by the publicly supported Arts Council, as "A shocking waste of public money at a time when we are being told to economize."

Fort Get New RCMP Building

A new RCMP building will be built at Fort Saskatchewan within a year, providing the proposal wins the approval of the Federal Treasury Board.

It is estimated that the 8500 square foot building will cost in the neighborhood of \$604,000. Tenders for the project will be let when the Treasury Board gives its consent.

The proposed building will be owned and operated by the town, and will be located at the corner of 90 Street and 99 Avenue.

The new building is needed because the present facility is crowded, with the situation worsening. The detachment currently works out of the town office basement.

The town will offer the RCMP a ten-year fixed lease, with tow five year renewable clauses on the building at an annual cost of \$5.50. The town already owns the land at the proposed site.

The new building will be adequate for space requirements projected over the next ten to fifteen years.

Wetaskiwin Glendale Plant Closes

Due to an executive decision in the Glendale Corporation, the company's manufacturing facilities at Wetaskiwin will be permanently closed. Company president John Slayter announced August 3 that the company intends to withdraw indefinitely from the mobile home market in Alberta. However, the company's subdivision in Lethbridge, Prebuilt Industries Ltd., will not be affected by the decision.

The decision to terminate the company's mobile home manufacturing operations in Alberta was based on heavy operating losses of the division when compared to the profitability of the company's other divisions in Quebec, Ontario, Lethbridge, Alta., and Australia. Study of the western mobile home market revealed that there was an exceptional number of competitive manufacturers in the province. Because of this the company decided that the immediate termination of operations and eventual sale of plant facilities would be financially beneficial. The move will make additions to working capital and reduce term debt.

Hamlet to Disappear Under Water!

If the new proposed Edmonton Power coal-fired power plant is approved, the hamlet of Gnessee will be submerged under 20 feet of water. It would be covered by a 1,000 to 1,500 acre cooling lake on the site, filled by the North Saskatchewan River.

The project would involve 3,000 acres of Gnessee area land, located 35 miles northwest of Leduc. If six instead of four generators are used, as much as 6,000 acres of land could be needed.

Edmonton Power will have to lease or buy the land from district property owners, to gain access to the coal deposits 150 feet below ground.

An eleven-member committee has been established in the community to represent residents in their dealings with Edmonton Power. Although the committee has sent out a letter asking residents their intentions response so far has been slight. Property owners are waiting to see what the company will offer them. A minority of property owners are opposed to selling their land at any price.

At a recent meeting, residents were told that the plant would employ 2,000 people while under construction, and more than 500 when operational.

Enough coal lies beneath the Gnessee area surface to fire the plant for 30 years.

1 THESSALONIANS 4:6

That no man go beyond and defraud his brother in any matter: because that the Lord is the avenger of all such, as wel also have forewarned you and testified.

OTTAWA and Small Business

A Pat Hand

by JIM SMITH

Politics is a poker game.

The stakes are higher than normal, but it's poker nonetheless. When the players don't hold strong hands, they try to bluff their way through. Occasionally, though, someone calls the player's bluff. And that's when the fun begins.

At this very moment, one of the more interesting hands is being played out in Ottawa. The players include representatives of big business, organized labour, and the federal government.

Big business and organized labour want an immediate end to the Anti-Inflation Board — even if the ultimate result is intolerably high inflation. Government, with fortunes that are closely tied to the level of inflation, is less willing to dispense with the AIB.

Recognizing that they don't hold strong hands, the business and labour representatives have tried to bluff. They argue that business conditions now are unfavourable to large wage or price increases even without the AIB. Therefore, the argument concludes, the government should do away with the AIB.

The government, after listening patiently to this fuzzy thinking, has called the bluff of the business-labour coalition. Big business and organized labour are being invited to put their money where their mouths are.

The government has

countered with a very reasonable proposal. The AIB will be dropped on October 14th, exactly two years after its birth, provided that business and labour agree to three conditions.

First, big business and labour must agree to voluntary wage and price restraint — at levels lower than are allowed by the mandatory controls that are presently in effect.

Second, government would set up a watchdog agency to investigate abnormal wage settlements and price hikes. Federal government activities would also come under the agency's spotlight.

Finally, business and labour leaders would participate in a multi-partite consultative forum to advise the Cabinet. The forum would be made up of representatives from small business, agriculture, and consumers as well as big business and organized labour.

The Canadian Federation of Independent Business is delighted with the proposals, which are basically in line with Federation recommendations dating back two years or more. "Even though our members would like to see the AIB retained until the new year," Federation president John Bulloch explains, "we believe they will be willing to accept an earlier end to formal controls in exchange for these three provisions."

In this particular game, the government is holding all the cards.

Successful playground program ends with parade

The St. Albert Summer Playground wound up a very successful season last week with a number of activities for the youngsters of the city's eight playgrounds.

On Wednesday morning, a Frisbee Contest was held at Lions Park, sponsored by the National Frisbee Association. Twenty-four winners emerged from the contest, which attracted over 100 eager participants.

A pool party was held for the youngsters on Wednesday afternoon, with fun and a free swim for all.

Thursday afternoon saw the conversion of the arena into a penny carnival, held by the children. An astounding 90,000 penny tickets were sold and \$80 realized. The profits were divided between the eight playgrounds, and then used to provide snacks for the end-of-season parties held for each group.

All during the week, the children learned graphically about the history of St. Albert. A drama troupe visited each playground, and groups of children were divided, to play the parts of Indians and pioneers. As the children acted out the conflicts that took place long ago, they gained great understanding of local history.

On Friday morning, all the youngsters in the playground program gathered at the arena, for the St. Albert Day Parade. Led by Ed Savoie, as Father Lacombe and Barry Harris, as Bishop Grandin, the colorful line moved down Perron Street and around St. Michael Street. Kids, leaders, and pets all joined in the march which was a fitting end to a remarkable summer.

Playground Program Director Marg Thompson stated that the summer program had been a successful one and that the Community Service Recreation and Culture Department was pleased with the outcome.

Around Town

Visiting St. Albert from England are Dennis and Val Brown and family who are staying at the home of Ray and Sheila Cooper and family on Fenwick Crescent. The Brown family are in Canada on a four-week vacation which started out with a week in Toronto and which concludes with a three week tour of the West.

So far the visitors have seen Toronto and Niagara in the east and have recently returned from a trip to Southern Alberta, Montana, Northern Idaho, Washington State and Radium, B.C. In Alberta the Browns have been to beauty spots in Banff and Jasper National Parks. The portion of their holiday still remaining will be spent touring places closer to home in the Edmonton area. So far they appear to be impressed with what they have seen.

The Brown family live in Edgware, England, which is a suburb of London. Dennis is a senior official at Scotland Yard, the famous headquarters of the London Police. This is the first time any of the family members have been to this country.

Last Thursday the Neighbourhood Watch poster contest winners were chosen from among the 30 entries in by deadline time. The theme of the contest was 'Lock your Bike'. Joanne Coulter, project leader and Constable John MacDonald, Crime Prevention and Community Relations Co-ordinator presented five year old Laura Walsh of 30 Gresham Boulevard with a bike lock donated by St. Albert Gift and Hobby. Laura will be starting school this year at Robert Rundle Elementary. Glen Turner, seven, was the winner in the six-nine year old category and will receive a lock from RMC Sports Centre when he returns from holidays. Nine year old Corinne Feldgate [inset] of 9 Michener Place won an afternoon in a police car in the 9-12 year old group. Corinne will be entering Grade 4 at Ronald Harvey this year. All the winners received a safety flag from the Neighbourhood Watch group.

Bicycle marking clinic is a success

The St. Albert Neighbourhood Watch group held a bicycle marking clinic on Saturday, August 20 at the rear parking lot of the RCMP station. The clinic proved to be a great success with 190 bicycles being marked with the owner's Social Insurance number. The purpose of marking (with an electric engraver) is to aid in the

recovery of stolen and/or lost bicycles.

More block leaders are needed for Operation Identification, a process where all valuables in the home are marked to reduce theft. The block leader's duty is to be in charge of an area of approximately 10 homes in his/her neighborhood.

He merely is responsible

for ensuring that the electric marking engraver and invisible ink marker is made available to those 10 homes and are returned when completed.

This is a community effort ... please get involved. If you are interested in getting involved in Operation Identification please contact the RCMP at 459-7721.

Egg pricing called unfair

The Consumers' Association of Canada has criticized as "half-hearted and overdue" the recent announcement by the National Farm Products Marketing Council of a revision in the national egg pricing formula. The Association also called for a reduction in the price of eggs to compensate consumers for the long delay before the decision was taken to implement a more realistic, cost-based egg pricing formula.

At a hearing held in the spring of 1976, CAC experts presented evidence showing that the costs to consumers as a result of CEMA pricing policy for eggs was more than 10¢ per dozen in excess of the level justified by production costs. The National Farm Products Marketing Council, the government body responsible for overseeing CEMA's operations, subsequently rejected the call for a roll-back in the price of eggs. But it also recommended further review of the cost formula as well as the central pricing system used by CEMA.

"It is interesting to note," said Mrs. Lotzkar, "that in its report on the hearing, the council admonished CAC, alleging lack of quality in our arguments. However, many of those same arguments have now apparently been accepted by the Council in its order for an adjustment of the formula." She explained that the new formula revision has incorporated several recommendations originally proposed by CAC, such as an

increase in the rate of lay from 19 to 20 dozen per hen, a reduction in the Feed Conversion Ratio and a more realistic calculation of producers' wage rates.

In her view, the failure of the National Farm Products

Marketing Council to order repayment to consumers of the losses sustained over the last year and a half is yet a further proof that the national farm marketing system does not protect the public interest.

Moose season moved ahead

J. Allen "Boomer" Adair, minister of Alberta Recreation, Parks and Wildlife, has announced that the male moose season in Wildlife Management Units F351, F354 and F356 will open September 7 rather than September 21 as had been previously declared.

The minister explained a boundary change this season has resulted in the three management units being excluded from big game Zone 1 in which the September 7 moose season opening is in effect. These units are now in Big Game Zone 5. The

season opening date in this zone is September 21.

Mr. Adair stressed the decision to retain the September 7 opening dates in the three units is to allow hunters to adjust to the change and will be in effect this year only. Next season the big game zone 5 opening date will apply.

A child out of sight may be a child drowned. Red Cross says, "Watch your children when near water. It takes so little to prevent an accident."

It won't be long now before St. Albert commuters are using the new improved 170 Street road to cut some travelling time into Edmonton. Remember the trees and the hills along the old road? Its amazing how quickly modern machinery is able to alter our landscape.

Students will have a "High Time"

Following are some of the highlights of the regular board meeting of school district #3 Monday.

THE BOARD GAVE a favourable response to a presentation in the form of a news release from "High Times," a monthly high school tabloid which is scheduled for distribution throughout the area this fall.

It will cover a wide variety of high school activities and is meant to give its student contributors a chance to build up portfolios for a possible future career in the

print media.

Acting chairman of the board Peter Freeman said he was not opposed to the idea of the tabloid which will give the schools an outside look at their own activities.

The newspaper is backed and owned by a team of professional newspaper people.

It is expected that 30,000 copies of the paper will be distributed through high schools in Edmonton and area, the fourth Monday of each month.

A MOTION was passed by the board for a resolution waiving an electors list so that an elector can declare himself. This follows the practice of St. Albert which does not prepare voters lists and uses the declaration format.

THERE SEEMED TO be a consensus at the board meeting that any agreement on school sites between St. Albert and the school boards should be incorporated into the joint use agreement.

There was the feeling that St. Albert was anxious to deal with this item, and it is expected to come up at the first council meeting of

September.

THE NEXT BOARD meetings for District #3 are slated for September 12 and 26.

THE LANDSCAPING AT the Bertha Kennedy School is complete, but additions to the top soil have cost the board \$1,208 more than had originally been estimated for the work.

GEORGE SOETAERT has been appointed as co-ordinator of the special ECS kindergarten at Vital Grandin school.

THE BOARD has deferred till next school year the possible hiring of consultant services in music for school district #3.

School Superintendent Bill Zielinski pointed out that the board could not entertain high priority on the proposal for a music consultant from Frances Schuchard, because of "economic constraints."

An area in the U.S. exceeding six states -- Connecticut, Delaware, Massachusetts, New Hampshire, Rhode Island, and Vermont -- has now been paved over for motor traffic.

Airlines to discuss reduced fares

All the major airlines of the world are meeting at the International Headquarters in Geneva to discuss a greatly reduced airbus fare on the Atlantic Sectors. There is talk of a \$199. return fare, New York to London, New York. Some travel agents are not always up to date on their fare information and a potential traveller should shop by phone to get the best possible fare. Very often potential air travellers are discouraged from further enquiry by misinformation.

Because travel agents get a commission as payment from the Airlines involved many potential customers are under the impression that this costs them more by going through an agency. This is just not so. The fact is that the price is the same from a travel agent as from an airline.

What is not the same is the service. Travel Agents have to compete on a larger scale and thus a good agent will explore all avenues of fares. Some Travel Agents charge a Service Charge, a cancellation charge or a delivery charge. -- This is just not fair to the client. About the only legitimate charge would be if the agent was to expend money on the client's behalf and gave the client credit, then an interest charge would be in order.

Helten Travel of St. Albert with a branch office in Edmonton offers a no-cost package to all potential travellers.

EDUCATION COMMENT

Distinguished educators coming to conference

A conference on "Second Language Acquisition" will take place at College Universitaire Saint-Jean from Tuesday, September 6 to Sunday, September 11. Since the conference is geared toward the practical aspects of teaching a second language, and includes numerous workshops, it would be of special interest to teachers of French at all levels. In this connection, grants are available to all French teachers in the province, both in the bilingual schools and in those where French is taught as a second language, to defray the costs of their attendance at the conference (travel, hotels and meals).

The sponsors of the conference hope that it will provide an opportunity for an exchange of ideas and methods regarding the teaching of French. In its role as bilingual faculty of the University of Alberta, the College hopes to encourage a closer liaison between the teaching of French and recent research concerning methodology.

Among the 30 speakers coming to the conference are Professors Jean-Guy Savard (Universite Laval), Wallace Lambert (McGill University),

and Henriette Cedergren (Universite de Quebec a Montreal).

All interested members of the public are welcome to attend.

For further information, please contact one of the

following persons at 466-2196 (C.U.S.J.): Dean Frank McMahon; Dr. Steve Carey, Director; or Midge Nickolchuk, Public Relations Officer.

For an application regarding the grants to teach-

ers, please contact: Mr. Roger Mahe, Coordonateur, 10001 Bellamy Hill Road, Edmonton, Alta., T5J 3B6.

Provision can be made for teachers of French and those teaching in French in the greater Edmonton region, or

within commuting distance, or requiring overnight stay. Funding is available on certain conditions at \$35 for a maximum of two days for a substitute teacher, plus travel and meal expense.

Thirty-three aspects of

teaching and acquiring a second language will be covered by the distinguished group of speakers and panelists coming to the conference from many parts of Canada, and the University of Alberta and College Saint-Jean.

Red Deer to hold child art workshop

Community leaders working with children in the area of arts and crafts are invited to attend Alberta Culture's workshop on child art. The weekend session costs \$16 and is being held September 23 to 25 in Red Deer. The fee includes lunch and coffee, but does not include accommodation.

The focus on the program called "Civic Eye on Child Art" is on improving the skills of the community art and craft instructor working with children of all ages. Participants will learn how to introduce new ideas, stimulating and encouraging children to participate fully in many areas of self-express-

sion.

The program includes art appreciation, art activities for the home, pre-school art, practical experiments in toy making, pottery, painting, printmaking and stitchery. Films and displays are an added interest.

Held in co-operation with Red Deer College, the session is an opportunity for leaders to acquaint themselves with both theoretical and practical aspects of children in art.

For more information write or call Alberta Culture, Visual Arts, 11th Floor, CN Tower, Edmonton, Alberta T5J 0K5, 427-2031.

St. Albert children learn to identify leaves during Funmaker's Club, a summer program of crafts and activities at the St. Albert Public Library. About 30 children take part in the program. Library assistant, Karin Schilling (above) helps some budding botanists with their program.

Soviet dissident to speak in Edmonton

Internationally famous Soviet Ukrainian dissident Leonid Plyushch, who underwent two and one half years in a Soviet psychiatric prison hospital, will be speaking in Edmonton on Thursday, September 1.

Plyushch, until 1968 was a mathematician at the Institute of Cybernetics in Ukraine. He was dismissed from his position after he had sent a letter of protest defending two Russian dissidents to the Soviet authorities and became a founding member, with General Grigorenko, of the Initiative Group for the Defence of Human Rights in the USSR. For several years Plyushch's writings appeared in Samvydav (underground) publications and he signed various petitions and letters of protest.

On January 15, 1972, Plyushch was arrested in his home city of Kiev. He was charged with anti-Soviet agitation and propaganda and was imprisoned and interrogated by the KGB, the

Soviet secret police. "From the first day of the investigation I refused to make any statement whatsoever, I knew that anything I said about my friends, even if it was in their favour, would only be used as an accusation against them. Neither the KGB nor the prosecutor's office are interested in the truth."

In the next 18 months, Plyushch was subjected to a psychiatric examination and confined for six months at the Lefortovo Prison being judged "INSANE 1 A PARANOID disorder characterized by messianic and reformist ideas." Between July 1973 and his expulsion in January 1976, Plyushch was kept in the Dnipropetrovsk Special Mental Hospital. During his detention Plyushch underwent a forced drug treatment. He was given the drugs Maloperidol and tritazin, and was also subjected to two courses of insulin therapy with the intention of breaking his will to fight.

Plyushch said there had been 60 other political prisoners in the Dnipropetrovsk hospital during his detention.

After Plyushch's arrest, a defence campaign on his behalf was initiated by an International Committee of Mathematicians centered in Paris. The campaign received extensive support

from the French trade union movement and the broad left. After interventions on his behalf by the French, Italian and British Communists, Plyushch, along with his wife and two sons, was expelled from the Soviet Union on January 15, 1976.

Currently, Leonid Plyushch is living in Paris. He will

be visiting Edmonton on his return trip after addressing the International Conference of the World Mental Health Association in Hawaii. During his stay in Edmonton he will give two public talks, in English and Ukrainian. The English language meeting will be held in the O'Leary

Centre (St. Joseph's Cathedral, 11313 Jasper Ave.) on Thursday, September 1 at 7:30 p.m. The Ukrainian language meeting will be held on Friday, September 2, at 7:30 p.m. in (St. John's Ukrainian Greek Orthodox Cathedral Auditorium, 10611 - 110 Avenue).

Grant MacEwan calendar available

The Fall, 1977 Calendar of Grant MacEwan Community College, listing evening credit and general interest courses is now available.

The calendar lists 87 non-credit general interest courses and 45 credit courses to be offered in Edmonton this September.

According to Hy Sheinin, director of the Continuing Education Division at Grant MacEwan Community College, "There has been phenomenal growth in the field of continuing education dur-

ing the past few years, both in the general interest, leisure area and the training and upgrading, job related skills area. The Continuing Education Division at Grant MacEwan Community College is working hard to meet these increased needs."

Not only does Grant MacEwan Community College offer its courses in the City of Edmonton, but many courses are portable and can be taken to communities outside the city on request.

Most credit courses begin

the week of September 12; general interest courses, the week of September 26. Individuals may register by mail, in person at the Registrar's Office (10756 - 97 St.) or with the receptionist at any of the college's four campuses. Courses fill quickly. Early registration is encouraged.

The Further Education Services Department of the Continuing Education Division is responsible for developing and offering the wide range of non-credit courses listed in the Fall 1977 calendar. The Business and

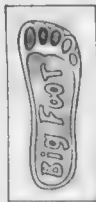

Professional Services Department designs and implements programs, workshops, seminars, etc. for business, industry, government, professional or paraprofessional individuals, organizations or associations. The Community and Agency Services Department responds to community and social problems by developing programs designed to meet the specific needs of community organizations and groups.

For further information or a copy of the Fall calendar, phone 462-2680.

Freshmen orientation seminars to be held

Each year the University of Alberta's Students' Union offers an orientation program for first year students. The program is designed to help high school students make the transition to university

life and inform them of the problems that may be encountered.

Seminars are offered in a weekend or one-day format throughout the summer and early part of September. Each seminar covers the following area of concern: registration, libraries, student services, extra curricular activities, university government, campus layout in the form of a guided tour, courses, calendar information, budgeting time and money, financial aid, social activities and helpful hints about campus red tape.

Further information may be obtained by phoning 432-5319 or writing to Freshman Orientation Seminars, Room 240 Students' Union Building, University of Alberta, Edmonton, Alberta.

Concerning Women Of Today's World

Propose cereal sugar content be revealed

National Health and Welfare Minister Marc Lalonde and Consumer and Corporate Affairs Minister Tony Abbott recently made public a proposal that the labels on

breakfast cereals declare the total amount of sugar and other sweeteners, as a percentage of the total weight of each cereal. The proposal is contained in a letter sent to

all manufacturers of breakfast cereals by the Health Protection Branch (HPB), Department of National Health and Welfare. The letter also includes proposals for mandatory minimum content of vitamins and minerals that would be required in cereal products.

A survey of the sugar content of Canadian breakfast cereals (attached) was recently completed by HPB. Seventy-four cereals were analyzed and the results indicated that sugar represented up to approximately 56 percent of the weight of some cereals. Certain foods which are mostly sugar, such as candies and soft drinks, are easily recognized but Canadians may not be aware of the large amount of sugar

in some manufactured foods, such as certain breakfast cereals.

Mr. Lalonde noted that unwise use of sugar is linked to dental caries, a widespread health problem in Canada.

The recently released Nutrition Canada Dental Report has drawn attention to the extent to which caries has affected the dental health of Canadians. Sucrose is of major importance in both the formation of dental plaque and the metabolic activity of oral bacteria which leads to dental caries. Sticky, sweet foods play a particularly undesirable role in this respect.

Many adult Canadians are overweight, their intake of calories being greater than

the calories they use. A general reduction in the intake of food and increased physical activity are usually advocated to prevent or treat this problem. When caloric intakes are reduced, those foods which are good sources of nutrients take on increased importance. Foods that are mostly sugar are likely to be low in vitamins, minerals and protein; the intake of such foods should be limited.

Cereals with the highest sugar content had 40 to 55.7 percent sugar. These included Boo Berry by General Mills; Sugar Pops by Kellogg's; Count Chocula by General Mills; Apple Jacks by Kellogg's and Frankenberry by General Mills.

Those with a low sugar

content, between 0-4.9 percent, included the following: Quaker's Puffed Rice, McNair's Quick Cooking Oatmeal, Quaker Quick Cooking Oatmeal, Nabisco Spoon Size Shredded Wheat, Nabisco Regular Cream of Wheat, Newport Puffed Wheat, Quaker's Peter Pan Puffed Wheat, Quaker Instant Oatmeal, Quaker Shredded Wheat, Robin Hood Instant Oatmeal, Quaker Puffed Wheat, Nabisco Mix n Eat Cream of Wheat, Quaker Malt Flavoured Shredded Wheat, Maple Leaf Red River Cereal, Nabisco Shredded Wheat, Nabisco Quick Cream of Wheat, Ogilvie Oatmeal, General Foods Grape Nuts, General Mills Cheerios, Wheatabix, and General Mills Wheaties.

New Access TV series features options & opportunities for women

FINDING MY OWN WAY is a new television series for women which examines problems and concerns that affect women who find a need to cope with change and growth in their day to day lives. Twenty-two half-hour programs produced by Access Alberta will be broadcast on a rotating schedule Wednesdays at 10 a.m., September 14 to June 7, 1978 on CFRN.

Goal reassessment is necessary if realistic decisions and choices are to be made for the future. This series provides information on how women can learn more about themselves as individuals, their needs, personal strengths and interests, so the right choices can be made. It also includes practical and factual information about the wide range of options and opportunities now available to women inside and outside the home.

Throughout the series Alberta women share their dreams, aspirations and

ways they have coped with problems encountered in making and carrying out decisions.

Three handbooks to accompany the series have been developed by Access and are available by writing to Finding My Own Way, c/o Access Alberta, Media Resource Centre, 16930 - 114 Avenue, Edmonton, Alberta, TSM 3S2.

A couple were walking along a city street late at night when it began to pour. Most of the shops were closed, but the wife spotted a neon sign and an open door below it, and they ran toward it for shelter.

When they got there, the husband saw that it was an expensive night club and hesitated.

"What's the matter?" asked his wife.

"I was just trying to decide," he explained "whether it was better to stay outside and get wet, or go inside and get soaked."

A Good Sign In St. Albert & Edmonton ...

Is The Canada Trust Real Estate Sign

We're proud of our sign... it is the best way for you to sell your property. Behind the Canada Trust sign stands a team of excellent real estate people in St. Albert and Edmonton ... a larger team in the Province of Alberta and a huge group of experienced people throughout Canada. These people; combined with our mortgages, relocation service, bridge financing, advertising and other financial services; makes it possible for us to sell your property to your best advantage. We would be proud to put the Canada Trust Realtor sign on your lawn.

We Are Proud Real Estate People

A large part of the success story of the Canada Trust Company is its people. Our motto is "People Helping People". We have confidence in the talents and abilities of our real estate salespeople. Thanks to them, we're one of the fastest growing in Canada. They have a great deal of sales expertise and are committed to top-notch service. The name Canada Trust stands for many things — service, integrity, confidentiality, fairness, ability and reliability. Why don't you call us today to sell or buy your next property.

Mortgage Facilities

In most cases, mortgage financing (first and second mortgages) can be obtained quickly with a minimum of fuss and trouble. Today our first mortgage rates start at 9 3/4% and many different terms and types of mortgages are available.

Buy Before You Sell

Our plan is called "Bridge Financing." If you wish to use the equity in your present home to buy another, either in St. Albert, Edmonton or almost anywhere in Canada, ask us about advancing your equity through a Canada Trust Loan. We will even remove all interest charges for the first 90 days. Our plan eliminates most of your risks and guarantees the best possible price for your former home while allowing you to take advantage of your full financial strength to get the best buy possible.

Relocation Services

Large corporations look to us for assistance with their employee transfers. Also, individuals who wish to relocate, either across St. Albert, Edmonton or across Canada, turn to us for assistance.

Join The Team

Canada Trust is looking for tremendous long-term growth. Obviously this will require a great deal of well-trained real estate salespeople. Ours is a well-run business committed to our responsibilities. We encourage anyone, who is interested in real estate as a career, presently in the business or not, to come in for a confidential discussion. Talk with us today. It could be the most rewarding thing you have ever done.

Jean Begley Writes

Jargon fractures communication

Since air travel has brought the world closer together, language has become more important than ever. Many people speak at least two languages. It's nothing today to hear students say they can converse in many languages.

My wonder is - what has happened to the English language? Let me give examples of what I mean. Why can't we talk about poor people anymore? We all know them by the thousands. No, we have to call them "underprivileged" or "cul-

turally deprived." When I was a girl and poor, I would have been insulted if called such names. I was poor, I had very little money simple as that.

Why can't we come out flat and say people are trying to get ahead instead of saying they have "upward mobility"? And must we say, when conditions are getting worse, that we are "escalating downwards"?

We never have discussions in business now, we have "seminars"; we don't do things, we "effect them."

When people don't want to do something, why can't they just say NO, instead of "opting out"; and when someone doesn't like a situation, does it help to say he's "alienated"?

Talking about people, what happened to them? - when did they become "human factors" or "human resources" instead of human beings?

On the other hand, it's easy to understand why we talk of the "credibility gap" instead of how much will the public swallow.

Don't you agree that it would be much simpler to say NOW instead of "at this point," and when something doesn't come off to call it a "flop" instead of an "abortive attempt"?

When we speak about children, the verbiage gets even worse. We never say a child is bold or bad - he's "aggressive" or "displaying his aggressions." He is never punished, he is "adjusted" (like a little machine). If he is behaving, he is "well-adjusted." When he learns his lessons he is being "orientated" and if he can't learn something he has a "learning disability." I even heard that we won't call for our children at school any more - soon schools will be known as "learning laboratories;" and libraries are already known in some other countries as "resources centres."

Why all the change? Surely the first and most

important part that language plays in the world is to help bridge the gap between people. With all the new

gimmicky jargon in the English language today, we are building a barrier around ourselves and others will

need a special language-key to participate and that is not what the language is for - or is it?

AIB says food prices moderating

The rate of increase in food prices has moderated considerably in the past month, according to the AIB's retail food price survey. This moderation comes after the relatively rapid increases in food prices recorded during the first six months of 1977.

Food prices for the balance of 1977 are expected to show little further increase. In particular, fresh produce prices are expected to decline during the late summer and fall as domestic supplies of produce become available in abundance.

For the four weeks ended July 15, the AIB survey recorded a price rise of 0.5 percent. This is the smallest month over month increase recorded in 1977.

During the week of July 15, the AIB surveyed various Canadian centres to establish the cost of a week's nutritional diet for a family of four. The average cost across Canada was \$49.40, while Edmontonians paid \$49.87.

In July, the index was 9.2

percent higher than the corresponding level last year. However, it should be noted that the food survey is subject to revision based on technical improvements that will not be available until next month.

Prices for pork, fish, apples, tea, frozen orange juice and fats and oils advanced, while prices for eggs, fresh vegetables and sugar declined, from month ago levels.

Dairy product prices have been stable in recent weeks. The price increases that resulted from the 1977-78 Canadian Dairy Policy have already been passed onto consumers, and there have been no further increases in provincial fluid milk prices.

Egg prices declined slightly during the last month. Further declines in price are anticipated following the recently announced two cents per dozen reduction in the Canadian Egg Marketing Agency's selling price. Retail egg prices in mid-July were

five percent above year ago levels.

Higher tea prices were principally responsible for an increase in average beverage prices since mid-June. Coffee prices appear to have stabilized with a mixture of advances and declines being recorded over the last four weeks.

AGT GOOD NEWS PARTY LINE

LIONS CLUB

* On Sunday, September 11, the St. Albert Lions Club is holding a Back to the Backs Family Barbecue in Lions Park. Tickets are available from any Lion and the occasion should be a fine way for local people to meet again and catch up the news of their neighbors after the summer vacation time is over and the kids are back in school.

GAMBLING CASINO

* The Edmonton Opera Guild will hold a gambling casino at the Citadel Theatre on Friday and Saturday, August 26 and 27. The Friday Casino will run from 6 p.m. to 2 a.m. and the Saturday casino will be held from noon to midnight. Admission is free and proceeds will go to the Edmonton Opera Association in support of the opera.

SWEET ADELINES

* Looking for a new, exciting hobby and like to sing? Gateway Chapter of Sweet Adelines invites you to join them in singing four-part harmony, barber-shop style every Tuesday night - Edmonton Room, YMCA beginning September 6, 7:45 p.m. Further information phone 459-8656 436-6159 or 467-8968.

"Cruel Tears" tours to play SUB Theatre

A prairie tale of "love, jealousy, and deceit," Cruel Tears appearing September 8, 9 and 10 at the Sub Theatre, is recognized as one of the most original and creative works of theatre art to emerge from Western Canada in many years. The show premiered in Saskatoon's Persephone Theatre in

the spring of 1975 and played to packed houses. It was praised by critics from all over Canada. Cruel Tears played for international audiences in Vancouver for Habitat in June 1976 and for the Olympics in Montreal. In May 1976, an adaptation of the play for radio was aired on the CBC.

The co-author of Cruel Tears is author-playwright-journalist-actor-teacher, Ken Mitchell. In the summer of '74 Ken Mitchell and Humphrey and the Dumptrucks began working with the idea of using Shakespeare's Othello as a narrative guide for a country opera tale set in a Saskatoon trailer court. In this contemporary story of estranged, proud lovers and a murderous jealousy, the writers deliberately undercut the Shakespearean prototype. The effect is a bold, sharp statement placing young love in the bitter context of the trials of modern life, from racial tension to media bombardment.

What emerged as a result of Ken Mitchell and Humphrey and the Dumptrucks working together was a distinctly creative effort, a remarkable compelling mood piece, which is also a sharply theatrical experience. The lyrics of the songs are credited to both Mitchell and the Dumptrucks. The songs range from the exuberant, sardonic and free-wheeling to the gentle and balladic. Humphrey and the Dumptrucks - armed with three different guitars plus a string bass, jug, auto harp, and

five-string banjo - are on stage for the entire show, providing accompaniment to the principals. They blend unselfishly with the performers, so that one is never aware of any conflict be-

tween musicians and actors. This band has made their name with a form of Saskatchewan bluegrass which is creative in terms of rhythm, harmony, and melodic line.

Evening performances begin at 8 p.m. and the Friday matinee at 2 p.m. Tickets are available at the Students' Union Box Office, all Woodward's Stores and Mike's Ticket Office.

Rehearsals for Sweet Adelines start soon

Anyone who enjoys singing knows what a lift it can give at the end of a busy day. Probably -- no one knows this better than a Sweet Adeline. Only those who have become involved in the hobby of barbershop singing know what a consuming interest it can become. The challenge of learning your part with its own particular contribution to the chord is a fascinating and enjoyable experience.

Four-part harmony barbershop style is International in scope with chapters from Alaska to Hawaii, in England and even in Saudi Arabia. Total membership in Sweet Adelines numbers near 25,000 women.

Barbershop choruses do charitable performances for

Senior Citizens as well as paid performances for conventions, banquets and so forth. Quartets often form from members of the chorus and the thrill of singing in a quartet has to be experienced to be appreciated.

Gateway Chapter of Sweet Adelines will be commencing regular rehearsals again the first Tuesday in September. Rehearsals will be held in the Edmonton Room, YMCA. The members of the chorus would like to encourage ladies who enjoy singing to come to a rehearsal and sample the hobby so many women the world over have come to love. For further information phone 459-8656, 436-6159 or 467-8968.

This gadabout rooster turned up Wednesday morning in the parking lot of the Grandin Shoppers Mall. The rooster, evidently a bird with a strong yen to travel, stowed away under the hood of a car belonging to a playground leader with the city's playground program. To her astonishment, it hopped out in the parking lot after she shut off the engine. The adventurous cock strolled about the area inspecting various vehicles, but was eventually apprehended by Sturgeon cab driver Pat Cathcart. The bird earlier had eluded a posse consisting of Mrs. Cathcart, a Gazette reporter and a truck driver.

DORIS AND JOAN CAMPBELL

The Red Onion has new look

There's something new in the air at the Red Onion in St. Albert!

The former pizza parlour at the Grandin Park Shopping Centre has undergone some transformations under new management and has emerged with a new ambience. A newly-obtained beer and wine licence allows patrons to sip a glass of wine or quaff a mug of beer in an atmosphere which has been softened by new carpeting, greenery and lighting.

The harsher notes of the juke box have been stilled, replaced by the more soothing strains of a new sound system. In addition, the Red Onion's menu shows some delectable revisions. Although pizza is still a headliner, cabbage rolls, home baked beans, chilli, corned beef and lasagne now await the hungry diner. Red Onion meals are now served

on china dinner services, rather than the paperware of days gone by.

Owner Russ Campbell stresses that young people

will still find a welcome at his establishment, but a \$1 minimum expenditure is required at lunch and dinner. The Red Onion is a

Campbell family affair. It is being managed by Mr. Campbell's wife, Joan, and his mother Doris Campbell.

Alberta Culture holds new novelist competition

Alberta Culture invites entries to its fourth Search-for-a-New-Alberta Novelist competition.

The competition was established in 1973 to help discover and encourage previously unpublished authors of adult fiction and has since made possible the publication of first novels by seven Alberta writers. The most recent winner is Pauline Gedge of Hanna, Alberta, whose entry "Child of the Morning" has won publish-

ing contracts with Canadian, American and British publishers.

Alberta residents who have not previously had a work of fiction published are eligible. Novels in the adult category ranging from 60,000 to 100,000 words are sought and there is no restriction on subject matter, theme or setting. Entries must be typed, double-spaced, and are limited to one manuscript per author.

To the winner of the

Fourth Search-for-a-New-Alberta-Novelist competition, Alberta Culture will award a prize of \$2500. If his or her entry is deemed suitable for publication, the same author will receive a standard publishing contract from Macmillan Company of Canada and an advance against royalties of \$1500.

In addition the Macmillan Company will offer an advance of \$500 along with a standard contract to the author of any other submission which they might decide to publish. Alberta Culture will also award these finalists \$1000 each.

Closing date for entries is December 31, 1977. Submissions and enquiries may be addressed to: Alberta Culture, Film and Literary Arts, 12th Floor, CN Tower, 10004 - 104 Avenue, Edmonton, Alberta. TSJ OK5.

Theatre 3 appoints P.R. director

Theatre 3 General Manager Stephen Gentles today announced the appointment of Donna Cardinal as Publicity Director to succeed Frank Moher.

Mr. Moher, an Edmonton playwright, and for the past two years Publicity Director of Theatre 3 leaves to assume the post of Dramaurge and Publicity Director for Northern Light Theatre, a position in which we wish him every success.

Ms. Cardinal a recent arrival in Edmonton from Vernon B.C., brings extensive background in the Art, Arts Organizations and Public Relations to Theatre 3. A Bachelor of Education graduate from the University of British Columbia in Theatre and English, Ms Cardinal taught theatre and Creative Drama for six years in Vernon B.C., and undertook numerous activities within the community arts organization.

Among Ms. Cardinal's credentials are positions as founding member of the VernonDance Group, founding member of "Creative Chaos" a three day Arts Fair which drew 16,000 people in its first year, and President of the Vernon Community Arts Council in 1975. In addition to her promotional activities with these organizations, Ms. Cardinal also directed publicity for the Vernon Film Society and a Community Concert series and was involved in local radio and television production of Performing Arts Events.

Artistic Director Mark Schenberg commented that "Much as we will miss Frank Moher's contribution to Theatre 3, Ms. Cardinal's appointment promises to bring a new and exciting dimension to the staff of the Theatre as we prepare for the November 3 opening of our new season."

This gives you membership privileges at all Scotiabank branches across Canada

Join Scotiabank and you can use your Scotiabank card to cash personal Scotiabank cheques at any Scotiabank branch in the country for amounts up to \$100 in any one day. Think of the freedom that gives you.

Think of the other attractive benefits of membership:

- any number of personal cheques on your Scotia Chequing Account, without service charge and without any minimum balance requirement.
- distinctive personalized Scotiabank cheques, including your name, address and phone number along with an attractive cheque wallet.
- any number of commission free travellers cheques, drafts and money orders for personal use. In the case of foreign currencies, the current exchange rates apply.
- commission free payment of bills normally accepted by your Scotiabank branch.

Scotiabank gives you these benefits plus more, and all for just \$2.00 a month. Apply at any Scotiabank branch for Scotiabank membership.

St. Albert couple "arrested" at Lloydminster

A couple on their way from Winnipeg to take up residence in St. Albert recently were "arrested" at Lloydminster, on the Alberta-Saskatchewan border.

Gary Assels, his wife Myrna and their three year old daughter did not stay long in the Lloydminster jail, however. They were soon presented with a Border Crossing Passport and allowed out to enjoy the many gift certificates compliments

of Lloydminster merchants. The certificates included accommodation for the night, meals, souvenir items, passes to the museums, and vehicle service including 10 gallons of gas. The Border Crossing Passport is a promotion of the Lloydminster Chamber of Commerce.

The Assels carried a letter to Mayor Richard Plain which was to be presented upon their arrival.

THE ASSELS family had to spend a little time in the "slammer", or border crossing point at Lloydminster recently on their way to take up residence in St. Albert from Winnipeg. But it was only a publicity stunt, as they were soon "released" to go on a shopping spree in Lloydminster, courtesy of the local chamber of commerce.

T.V. listings for Cable 5

WEDNESDAY, AUGUST 24
7:00 Breaker, Breaker
7:30 St. Albert Tonight

Gunsmith show at museum

Belgian Gunmaking and U.S. History opened recently at the Provincial Museum, 12845 - 102 Avenue, Edmonton. Winchester, Remington and Browning. These names trigger a response in most people. All of them are famous U.S. gun designers, and some of their finest firearm inventions are a part of a new exhibit brought to Edmonton by Alberta Culture.

More than 140 firearms used or designed in the U.S.

and manufactured in Belgium are on display. Photographs, documents and maps help illustrate the business and artistic relationship between U.S. gun designers and skilled Belgian gun-makers over the past 200 years.

Museum-goers can see a blunderbuss from the 17th century, an exquisitely carved set of dueling pistols, beautifully engraved semi-automatics from the 1890s and the one millionth Browning

pistol manufactured in Belgium in 1912.

A sportsman's 18th century gun case in mint condition carries not only the rifle, but also the tools and

materials needed to make bullets.

Some of the firearm oddities include a tiny pistol hidden in a whip, and an unwieldy turret rifle from

1850.

Belgian Gunmaking and U.S. History is on loan from the Belgian government and circulated by the Smith-

sonian Institute.

The show runs until September 11. Admission and parking at the Museum is free.

Volkswagen presents 60 MPG car

Volkswagen has come up with a four-cylinder turbo-charged diesel-powered car that goes 60 miles per gallon of fuel. The car was

presented to the U.S. Transportation Department for use in economy tests.

The car is proof that the technology exists for auto-

mobile manufacturers to far surpass government standards for mass-produced automobiles.

At present U.S.-built cars

will be required to average 20 miles per gallon by 1980 and must reach 27.5 miles per gallon by 1985.

REGISTRATION TIMES AND PROCEDURES

(a) **Elementary and Junior High Students** will register at their designated school during the morning of Tuesday, September 6. It is suggested that the following schedule be followed in order to reduce queuing:

Surnames beginning with the letter	A - G 9:00 - 9:45 a.m.
	H - N 9:45 - 10:30 a.m.
	O - Z 10:30 - 11:15 a.m.

Students will not attend classes on Wednesday, September 7, but will return for regular classroom instruction in the morning of September 8. The elementary school day will begin at 9:00 a.m. and Junior and Senior High at 8:30 a.m.

(b) **Senior High Students** will register at Paul Kane High School as follows:

August 31 1977: Advance Registration for students new to the District.
Bring all previous high school records for evaluation.

September 6 & 7: General Registration

- (1) Grade 1X: Tuesday, Sept. 6, 9 a.m. - 12 noon
- (2) Grade X: Tuesday, September 6, 9 a.m. - 12 noon
- (3) Grade XI: Tuesday, September 6, 1 p.m. - 3:30 p.m.
- (4) Grade XII: Wednesday, September 7, 9 a.m. - 12 noon.

All students will confirm registration; pay Instructional Materials Rental Fee (\$10.50 per semester), and Student Union and Yearbook fees (up to \$8.00 but optional).

(c) General Procedures

NEW STUDENTS

All students new to the District will register at the tables marked "New Students," and are requested to provide the following information (noted on a piece of paper, please):

1. Full name - no nicknames, please
2. Date of Birth
3. Birthplace
4. Church affiliation (Protestant or Roman Catholic for taxation purposes).
5. Name of father, his occupation, business phone (for emergencies)
6. Name of mother, her occupation, business phone, home phone (where applicable - name of guardian, occupation, phone)
7. Name of family doctor, phone number
8. Student's home address
9. Number of older brothers, older sisters
10. Names and birthdates of younger brothers, younger sisters
11. Name and location of last school attended, grade last term
12. Other languages spoken at home.
13. Bring last report card or other proof of grade placement.

New Grade One Students (Those NOT pre-registered in the Spring as beginners)

Grade One students must present their birth certificate at the time of registration as proof of age. Beginners must reach their sixth birthday by February 28, 1978.

Former Students

Students who attended schools in the District in 1976-77 school year will proceed directly to the tables marked "old students." Here a previously prepared Registration Form will be available. Students are asked to bring information regarding change in address, telephone number, etc. and additions to the family (with birthdates) since last year's

registration, and their last Report Card for the previous grade.

(d) Registration of Kindergarten Pupils and Sale of Kindergarten Bus Passes

Parents of children who are eligible for Kindergarten are advised to visit the Board Room in the District Office between 1:00 p.m. and 5:00 p.m. on Tuesday, September 6, to

- (1) confirm the registration of Kindergarten pupils previously registered;
- (2) enroll children who have not yet been registered;
- (3) purchase bus pass, if required.

Since Kindergarten pupils must be 5 years of age by February 28, 1978, parents of new registrants must show their child's birth certificate.

School Day Schedule for Kindergarten Program (Half day per class)

A.M. Program: 9:00 a.m. to 11:10 a.m. (130' including 10' recess)
P.M. Program: 12:30 p.m. to 2:40 p.m. (130' including 10' recess)

N.B. Regular Kindergarten classes will begin on Monday, September 12.

INSTRUCTIONAL MATERIALS RENTAL PLAN

Textbooks and related instructional materials are available to students through an instructional Materials Rental Plan. The rental fees charged per student are as follows:

Division 1 (Grades 1 - 3):	\$9.00
Division 11 (Grades 4 - 6):	\$11.00
Division 111 (Grades 7 - 9):	\$16.00
Division 1V (Grades 10 - 12):	\$21.00

Instructional materials will be issued on proof of payment of fees.

Students who have not paid for damaged books or who have not replaced lost books from the previous school term will NOT be permitted to use the Instructional Materials Rental Plan until settlement is made. **POSTDATED CHEQUES ARE NOT ACCEPTABLE.** Cheques should be made payable to the school attended.

OTHER SCHOOL FEES

Each school will provide students and parents with information concerning other school fees and expenses.

SCHOOL BUSING

The Board will operate a school busing system with an annual fare charge of \$30.00 for one pupil (including Kindergarten children) in a family and \$60.00 for two or more pupils in a family. However, fares will be waived for elementary and junior high school pupils (with the exception of Kindergarten pupils and pupils placed in special programs within the District or in the Edmonton Public School District) who have been transferred from a neighbourhood school which is a reasonable walking distance from their residences to a school beyond reasonable walking distance.

The extent of busing service will depend largely upon the number of pupils who make application for bus passes, and for this reason it is requested that applications be submitted as soon as possible. Passes will be available for purchase as follows:

- (1) at the District Office during the summer vacation period;
- (2) at all schools on registration day; (Do Not make cheque for bus passes payable to schools.)
- (3) at the District Office after registration day until the deadline date of September 30, 1977.

NOTE: From September 1, to January 31, no adjustment in charges will be made for any reason.

After January 31, the following charges will become effective:

\$3.00 per month per student
\$6.00 per month for family passes.
FEES MUST BE PAID BY SEPTEMBER 30, 1977. Family applications must be submitted on ONE form.

MAKE CHEQUE PAYABLE TO:

St. Albert Protestant Separate School District No. 6

SCHOOL BUS SERVICE WILL BEGIN ON THURSDAY, SEPTEMBER 8, 1977.

ONLY THOSE STUDENTS HOLDING A BUS PASS WILL BE PERMITTED TO RIDE ON THE SCHOOL BUSES.

Carelessness causes crashes

Driver error or failure to adjust to conditions was the cause of 13 deaths in 11 traffic accidents during a recent one-week period according to Alberta's accident investigation team.

"While our investigation of these accidents revealed a wide range of circumstances all were the direct result of driver error or carelessness," said a team spokesman.

He listed such factors as falling asleep at the wheel, failing to keep to the right, particularly at the crest of a hill, failing to use passenger

restraint systems, failure to adjust speed to night visual limitations and use of alcohol to back up the point.

Five of the fatal accidents occurred at night, he said.

Three were head-on collisions, two of which were at the crest of a hill. Another three were run off the road type mishaps and three people were killed when they

were thrown out of the vehicle.

The accident investigation team is part of Alberta Transportation's Safety Branch.

Red Barn hosts Carlton Showband

On Friday the Hostess with the Mostest - The mostest male guests that is! was Cindy Ryley. Cindy was in the enviable position of

being the only gal with 12 guys.

The guests were long-time friends. All eight members of the Carlton Showband, their

charter plane pilot Tim, co-pilot, Dave and properties handler Wayne.

Cindy's husband Dick, who had booked the band

into the Red Barn Friday night, was kept very busy barbecuing steaks for everyone.

A great evening was later

enjoyed by about 100 people at the Red Barn.

For those who missed the boys (and those who never miss a performance), the

Carlton Showband will be back for the St. Albert Lions Annual Irish Spring Festival, April 1, 1978.

ST. ALBERT PROTESTANT SEPARATE SCHOOL DISTRICT NO. 6

SCHOOL ATTENDANCE AREAS FOR THE 1977-78 SCHOOL YEAR

1. **Sir Alexander Mackenzie Elementary School** will serve the elementary pupils living in the areas indicated below:

(a) **Grades 1 to 6:**

All of Braeside (including Carma Development in East Braeside). (Busing with fare charge may be provided if there are enough applicants to justify a bus route).

(b) **Grades 1 to 6:**

The part of Forest Lawn lying between Forest Drive and Sir Winston Churchill Avenue, and Finch Crescent. However, it may be necessary to send some pupils from this area to Leo Nickerson School in order to balance class sizes. (Busing with fare charge may be provided if there are enough applicants to justify a bus route).

(c) **Grades 5 and 6:**

Goodridge Drive, Garfield Place, Galaxy Place, Greenhill Street, Garaway Place, Garcia Place, Gloucester Drive, Glaewyn. (Busing will be provided without fare charge).

(d) **Grades 1 to 6:**

Akinsdale: Normally pupils currently attending Sir Alexander Mackenzie School will continue in this school, but they may attend Leo Nickerson School if space is available. Contact the Principal of either school to make necessary arrangements. (Busing with fare charge will be provided if requested).

(e) **Grades 3, 5 and 6:**

Greenfield Estates. (Busing will be provided without fare charge).

(f) **Grades 5 and 6:**

Grandview Ridge and Grandin Village. (Busing will be provided without fare charge).

(g) In addition, all other Grandin Park pupils currently enrolled at Mackenzie School will continue to attend this school. (Busing without fare charge will be provided).

(h) The Primary Opportunity Program at Mackenzie School will accommodate all eligible children in the District. (Busing with fare charge will be provided if requested).

2. **Leo Nickerson Elementary School** will serve elementary pupils in the areas indicated below:

(a) **Grades 1 to 6:**

The Sturgeon Heights Subdivision. (Busing with fare charge may be provided if there are enough applicants to justify a bus route).

(b) **Grades 1 to 6:**

The part of Forest Lawn south of Forest Drive, including both sides of Forest Drive, except for Finch Crescent which is assigned to Sir Alexander Mackenzie Elementary School; this is the area that lies between Forest Drive and Hebert Road. However, it may be necessary to send some pupils from this area to Mackenzie School to balance class sizes. (Optional busing with fare charge will be provided if there are enough applicants to justify a bus route).

(c) **Grade 2:**

Children from Greenfield Estates, Grandview Ridge and Grandin Village who took grade one at Nickerson School in the 1976-77 school year will remain at Nickerson School for grade two. (Busing will be provided without fare charge).

(d) **Grades 1 to 6:**

Akinsdale Subdivision: Pupils from this area may attend Nickerson School or Mackenzie School if space is available. Contact the Principal of either school to make the necessary arrangements.

3. **Robert Rundle Elementary School** will serve all elementary pupils in grades 1 to 5 inclusive living in the Grandin Park Subdivision with the exception of the following grades which have been assigned to other schools:

(a) **To Alexander Mackenzie School:**

(1) **Grades 5 and 6** from Goodridge Drive, Garfield Place, Galaxy Place, Greenhill Street, Garaway Place, Garcia Place, Gloucester Drive, Glaewyn.

(2) **Grades 3, 5 and 6** from Greenfield Estates

(3) **Grades 5 and 6** from Grandview Ridge and Grandin Village

(b) **To Sir George Simpson School:** one grade 5 class.

(c) **To Leo Nickerson School:**

(1) **Grade 2** from Greenfield Estates, Grandview Ridge and Grandin Village. (Those pupils who took grade 1 in Nickerson during the 1976-77 school year).

(Busing with fare charge will be provided to Rundle School if there are enough applicants to justify a bus route).

4. **Ronald Harvey Elementary School** will serve elementary pupils living in the areas indicated below:

(a) **Grades 1 to 5:**

Mission Park and Lacombe Park. (Busing with fare charge will be provided on the established route if requested).

(b) **Grade 6** pupils from Mission Park and Lacombe Park will attend Sir George Simpson School. (Busing without fare charge will be provided).

5. **Sir George Simpson School** will serve all grade 6 pupils living in the Grandin Park

Subdivision with the exception of grade 6 pupils living in the following areas who have been assigned to Sir Alexander Mackenzie School: (Busing with fare charge may be provided if there are enough applicants to justify a bus route).

(a) Goodridge Drive, Garfield Place, Galaxy Place, Greenhill Street, Garaway Place, Garcia Place, Gloucester Drive.

(b) Greenfield Estates.

(c) Grandview Ridge and Grandin Village.

In addition, Sir George Simpson School will enroll all Grade 6 pupils living in Mission Park and Lacombe Park. (Busing will be provided without fare charge).

6. **Sir George Simpson** will serve all junior high students living west of Highway No. 2 with the exception of those grade 9 students living in the following areas who will attend Paul Kane High School:

(a) All grade 9 students (except band students) living in Mission Park and Lacombe Park. (Busing with fare charge will be provided).

(b) Those grade 9 students living in Grandin Park who have been advised that they will attend Paul Kane School in the 1977-78 school year. (Busing without fare charge will be provided).

(c) All new grade 9 students entering the District will attend Paul Kane School.

NOTE:

(1) Simpson School will also serve all students enrolled in the Junior High Improvement Programs, and students in the Junior Opportunity Program. (Busing with fare charge will be provided if requested).

(2) Some Grade 7 and/or Grade 8 students moving into the Simpson attendance area after June 30, 1977 may be required to attend Lorne Akins School in order to balance class sizes.

7. **Lorne Akins School** will serve all junior high school students living east of Highway No. 2 with the exception of new grade 9 students, who will attend Paul Kane School, and grade 7 and 8 students assigned to Simpson School. (Busing with fare charge may be provided if there are enough applicants to justify a bus route).

NOTE:

(1) All new grade 9 students entering the District will attend Paul Kane High School.

(2) Some Grade 7 and/or Grade 8 students moving into the Lorne Akins attendance area after June 30, 1977, may be required to attend Sir George Simpson School in order to balance class sizes.

8. **Paul Kane High School** will serve the following students:

(a) All high school students in the St. Albert Protestant Separate School District.

(b) All grade 9 students (with the exception of band students who will continue to attend Sir George Simpson School) living in Mission Park and Lacombe Park. (Busing with fare charge will be provided).

(c) Grade 9 students from Grandin Park have been advised that they will attend Paul Kane School. (Busing will be provided without charge).

(d) All new grade 9 students entering the District.

9. **District Students Attending Schools, Under Board Sponsorship, in The Edmonton Public School District**

The following busing arrangements will be made for students who, under Board sponsorship, are enrolled in special programs in the Edmonton Public School District:

(a) Busing with fare charge will be provided for students attending W. P. Wagner High School (Trades & Services Program).

(b) Busing with fare charge will be provided for students attending L. Y. Cairns Vocational School, and Avonmore Elementary School (Program for the Mentally Retarded), and Windsor Park Hard of Hearing class.

(c) There will not be a school bus service to the following schools but an annual bus pass for public transportation may be purchased for \$30.00 (or less if the family rate applies) per student:

(1) Victoria Composite High School (High School Vocational Program and Trades and Services Programs)

(2) McKay Avenue School and H. A. Gray School (Pre-Vocational Program)

(3) McCauley School (Basic English Program) or McDougall School.

Students enrolled in the above city schools should make application for bus passes through Mr. W. D. Thomas, Supervisor of Education, in District Office (Telephone 458-2060) after August 22, 1977.

10. District students who attend Edmonton schools without Board Sponsorship may also apply for a public bus pass through Mr. W. D. Thomas in District Office after August 22, 1977, but will be required to pay the difference between the cost of a bus pass for one school year and the "per pupil" transportation grant received by the School Board from the Department of Education.

New books available at The St. Albert Library

By Margrit McCreath and charming book, CBS correspondent, Dan Rather, by Dan Rather. In this candid

Pictured above are Malcolm Fraser (left) of Fraser's Photography Ltd., St. Albert and Donald Jack, internationally known photographer and lecturer, who is teaching in workshops across Canada. The workshops include new styles of portraiture in the studio and outdoors, and new finishes for presenting quality photographs. Malcolm Fraser, who resides at 7 Sheridan Drive, St. Albert, is operating a full service photographic operation from his home.

world of the TV reporter. With immediacy, humour, and a marvelous eye for the revealing incident and colourful detail, he tells the behind-the-scenes stories of recent history's stormiest events.

Classic Canadian Cooking by Elizabeth Baird. Emphasizing the seasonal use of Canadian foods and produce when they are at their freshest and most plentiful, the author combines history, tradition and fine recipes in a manner to please the eager student, the accomplished cook and the collector of fine cookbooks.

The Crafts Business Encyclopedia by Michael Scott. A book for anyone who makes craft objects for sale -- whether as a part-time activity or a full-time profession. It shows how the techniques of marketing, merchandising, management and selling will enable you to profit from the work which represents your best creative talents.

The Fascinating World of

New Brunswick by Stuart Trueman. Here is a lively, entertaining account of the curiosities and off-beat wonders of New Brunswick. Trueman, the award winning humourist, historian and raconteur, has garnered a bumper crop of anecdotes

from his 50 or so years of visiting quaint spots and meeting unusual and intriguing personalities.

How Levesque Won by Pierre Dupont. Canadian politics changed dramatically on November 15, 1976, with the stunning election victory

of Rene Levesque and the Parti Quebecois. This book is the story behind that election campaign, offering the background which explains how Levesque won -- and why.

The Lady Who Loved New York by R. L. Gordon. A well written, entertaining exercise in nostalgia, depicting life among the rich in turn of the century New York. It is the story of Alice Barrington Melville, a 95 year old grandmother living in Vancouver and recalling her girlhood days among the prominent and wealthy.

The Rise of the Parti Quebecois 1967-1976 by John Saywell. One of Canada's leading historians and political commentators traces the evolution of the Parti Quebecois from 1967 to 1976. It provides a complete and objective narrative of the party's history and its context in Quebec politics and society. The final chapter on 1976 describes the events surrounding the party's stunning victory in the November election.

Ukrainian Day celebration at Heritage Village

For the first time in its history the Ukrainian Day Celebration, an annual event will be held at the Ukrainian Heritage Village located on Highway 16 East, two miles east of Elk Island Park.

The annual celebration is sponsored by the Provincial Council of the Ukrainian Canadian Committee. The committee is an umbrella organization which co-ordinates the activities of most Ukrainian organizations in Alberta.

Guest speaker will be The Honourable Horst Schmid, Minister of Culture for the Province of Alberta.

Highlight of the afternoon will be the sod turning ceremony by the Honourable William J. Yurko, Minister of Housing and Public Works for the Province of Alberta. The sod turning will mark commencement of the first phase of development of Ukrainian Heritage Village. Phase One will be construction of a visitors centre and administration building, and installation of utilities and visitors facilities.

The Government of Alberta undertook a project of Ukrainian Heritage Village one year ago by purchasing the land and historical buildings from the registered society which had conceived the project. A Citizen's Advisory Board has been appointed to advise on the development and administration of the village.

The Ukrainian Day program will include concert

items by the well known Dnipro Ensemble, a Bandura soloist, a singer from Calgary, a dance group from Two Hills, a choir from Vegreville, and the popular Dumka Orchestra.

Picnic facilities will be available from 12 noon and the program will start at 2:30 p.m. on Sunday, August 28, 1977. Everyone is welcome.

ST. ALBERT CATHOLIC SCHOOL DISTRICT NO. 3

REGISTRATION OF STUDENTS

PUPILS IN GRADES 1 - 9 WILL REGISTER ON TUESDAY, SEPTEMBER 6, 1977 AS FOLLOWS:

STURGEON HEIGHTS:	Grades 1, 2, 3, 4, 5, 6, 7	Vital Grandin School	8:50 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.
MISSION PARK:	Grades 1, 2, 3, 4, 5, 6, 7	Father Jan School	8:30 a.m.
	Grade 8 & 9	V. J. Maloney School	8:30 a.m.
BRAESIDE:	Grades 1, 2, 3, 4, 5, 6, 7	Vital Grandin School	8:50 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.
LACOMBE PARK:	Grades 1, 2, 3, 4, 5, 6, 7	Bertha Kennedy School	8:30 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.
GRANDIN PARK:	Grades 1, 2, 3, 4, 5, 6, 7	Albert Lacombe School	8:50 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.
FOREST LAWN:	Grades 1, 2, 3, 4, 5, 6, 7	Vital Grandin School	8:50 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.
AKINSDALE:	Grades 1, 2, 3, 4, 5, 6, 7	Vital Grandin School	8:50 a.m.
	Grades 8 & 9	V. J. Maloney School	8:30 a.m.

Buses will run on registration day the time shown on the busing schedule also included in this issue of the Gazette.

The above registrations are tentative only and attendance zones are subject to change by the School Board if enrollments are extremely heavy.

Regular classes will commence on Thursday, September 8th, 1977 at the following times:

VITAL GRANDIN SCHOOL, 39 Sunset Blvd. -- 459-7418	8:50 a.m.
ALBERT LACOMBE SCHOOL, 50 Gainsborough Ave. -- 459-4478	8:50 a.m.
FATHER JAN SCHOOL, 15 Mission Avenue -- 458-3300	8:30 a.m.
VINCENT J. MALONEY SCHOOL, 65 Sir Winston Churchill - 458-1113	8:30 a.m.
ST. ALBERT HIGH SCHOOL, 33 Malmo Drive -- 459-7778	9:00 a.m.

ST. ALBERT HIGH SCHOOL 1977/78

Tuesday, September 6, 1977 -- 9:00 a.m. - 11:30 a.m.

Confirmation of student pre-registrations only, Grades X, XI, XII.
9:00 a.m. - Surnames A - F 10:00 a.m. - Surname G - Q
11:00 a.m. - Surnames R - Z

Tuesday, September 6, 1977 -- 1:00 p.m. - 3:00 p.m.

Registration of NEW STUDENTS to St. Albert High School and those students who had NOT previously registered, Grades X, XI, XII.

Textbook Rental Fee: \$21.00

All fees are to be paid at the time of registration. Fees are payable by cash or cheque. Make cheque payable to ST. ALBERT HIGH SCHOOL. Additional costs as related to individual programs - see Student Policy Handbook.

Upon registration and payment of fees, the student will be given a copy of his First Semester Timetable which will serve as his Admit-to-Class document.

Wednesday, September 7, 1977 - Staff preparation day

Thursday, September 8, 1977 - First day of classes.

School hours: 9:00 a.m. - 3:30 p.m.

Busing inquiries: Secretary Treasurer, St. Albert School District No. 3, 459-7711.

Henry - Telford wedding

St. Albert Roman Catholic Church was the setting for a lovely summer wedding when Jeannette, daughter of Mr. and Mrs. Albert Henry and Raymond, eldest son of Mr. and Mrs. R. Telford were recently united in marriage. Father U. Duchesneau performed the beautiful double ring ceremony. A very impressive part of the wedding celebration mass was the bride and groom partaking in the offertory offering.

Given in marriage by the father, the bride looked radiant in an elegant gown of organza and chantilly lace, which combined classic elegance and timeless beauty in her traditional gown. It featured a slightly raised waistline, a softly V neckline with a Queen Anne stand-up effect at the back. Tiers and tiers of flounces all were edged in fragile matching chantilly lace. The long slim sleeve forming a trumpet effect. Her finger-tip nylon illusion veil, four tiers edged

in lace was held in place by a modified Juliet lace and pearl trimmed Juliet cap.

Her attendants were Lorraine Telford, Diane Hanson, Karen Reed, and Karen Telford, and the sweet little flowergirl was Janine Symbaluk. The girls wore pale blue satin polyester gowns, detailed with butterfly sleeves and ecru lace. They wore daisies in their hair and carried nosegay of tinted blue mums and shasta daisies. The flower girl wore an identical gown of swiss dots and carried a basket of daisies.

The groom looked handsome in his white tuxedo, while his attendants wore navy tuxedos. They were Randy Telford, Luigi Cigaretto, Marty O'Kell, B. J. Telford, and young ring-bearer Marc Belhumeur.

For her daughter's wedding Mrs. Laura Henry wore a pretty gown of coral chiffon. The empire waistline was accented with tiny seed pearls. Mrs. Adrienne

Telford chose a smart two piece coat and gown ensemble in a pale green shade. To complete their attire the mothers wore white orchids.

Appropriate and well chosen selections were executed by organist Mrs. Lois Hole, soloist Linda Schmidt, and guitarist Darrell Tate.

Mass servants were Maurice Kelly (Jr.) and Darrell Symbaluk, and ushers were Pierre Belhumeur and Kevin Telford.

A large reception followed at the Club Mocombo, where many friends and relatives joined to share and celebrate in the festive occasion. The bride's uncle and godfather, Maurice Kelly proved to be a very capable master of ceremonies. The toast to the bride was proposed by the bride's brother Raymond Henry.

Among out of town guests were the groom's grandparents Mr. and Mrs. Ti-vierge from Florida. Relatives and friends also came

from Montreal, Vancouver, Victoria, Kamloops, Kelowna, Great Falls, Montana, and Texas.

For her going away ensemble the bride wore a two piece floral silk blend dress

of coral and beige tones. Her accessories were of matching coral. The groom wore a complimentary beige leisure suit.

The couple travelled to the Okanagan for their honey-

moon and upon their return will make their home in Edson.

Prior to her marriage the bride was feted at three large showers, which were given by friends and relatives.

Dancing is not all hard work!

Anyone who attended the year end recital of St. Albert School of Dancing, must realize the fun and excitement enjoyed by the students who performed, and the enthusiasm of the proud parents and relatives.

Every student in the dancing school is given the opportunity to take part in this stimulating performance and prove that the effort put into the weekly classes can be rewarding.

"It is essential," say the principals, "that children learning dance should have knowledgeable professional teaching, which in the end

brings enjoyment to dancing."

Over the past 15 years the school's policy has always been quality, and results of exams and festivals over the years indicate that the emphasis on sound technical training and disciplined classes, has paid off. The school has had consistently strong performances from all age groups in both activities.

Teachers are very careful about anatomy, as a young body can easily be spoiled by inexperienced teaching. Mrs. Alma Hughes and Mrs. Gladys Smith feel their assistants are the best in the

area, and all staff members of the Imperial Society of Teachers of Dancing, Eng-

Gladys Smith, one of the principals of the St. Albert School of Dancing enjoyed doing the "Football Hero" number with a group of her young Tap students at the year-end dancing festival held at the Jubilee Auditorium in late June.

land, who through experience, have the ability to conduct fulfilled classes with the necessary discipline."

Dancing is one of the most valuable activities for any child. As well as gaining poise and self confidence, and the ability to socialize, the physical exercise alone is an excellent form of relaxation.

An exciting conclusion for students this year will be

performing the year end recital at the new Shochor Theatre in the Citadel. Because of the heavy enrollment expected. There will be two performances, one afternoon and one evening.

Those interested may check this issue for a registration advertisement and the school expects that classes will have to be limited.

Old furniture and household goods needed

Foreign students arriving at the end of this month to attend the U of A are in need of furnishings for their residences.

To help meet this need a group of students sponsored by Variety Christian Fellowship have organized a furniture depot to collect donated articles. A small service charge will be assessed those students who are able to pay for the service. Screening of applicants to determine financial need will be carried out by the Foreign Student Office.

Approximately 200 foreign students enroll at the U of A each year with the largest number coming from Hong Kong, the U.S. and 3rd World countries. Many of these students are limited in the amount of currency they are allowed to take out of their countries making the problem of furnishing their residences even more acute.

So far the Depot, started in the middle of May, has enough donated material to handle about 30 of the

students in greatest need.

Kitchen things are in the shortest supply particularly tables and chairs. Furniture which could serve as a desk is also much needed.

For hygienic reasons used bedding or clothing cannot be accepted. Of the larger appliances only working-order washers and dryers are in any demand. Old B/W TVs would also be appreciated.

The depot, in operation until September 10, has a truck which will pick up any donations local citizens wish to make. The number to call is 432-4145.

Any small cash donations would also be used to cover expenses. The depot, under the direction of Don Posterski, is in its first year of operation. If the experiment is successful it will be carried on in future years.

If you have any household articles hanging around your home which you no longer have use for, please don't hesitate to call the Depot at 432-4145.

Parsonally Speaking

Pastor B. L. Heath
First Baptist Church

GLADSTONE: "The four great scourges of mankind have been drink, war, pestilence and famine, and drink has been more destructive than war, pestilence and famine combined."

"Drink has drained more blood,
Hung more crepe,
Sold more houses,
Plunged more people into bankruptcy,
Armed more villains,
Slain more children,

Snapped more wedding rings,
Defied more innocence,
Blinded more eyes,
Twisted more limbs,
Dethroned more reason,
Wrecked more manhood,
Dishonored more womanhood,
Broken more hearts,
Blasted more lives,
Driven more to suicide,
and
Dug more graves than any other poisoned scourge that ever swept its death-dealing waves across the world."

Local couple wed here in July

On July 23 the St. Albert Roman Catholic Church was the scene of a beautiful summer wedding, when Debbie Warren, daughter of Mr. and Mrs. Roy Warren and Dean Bokenfohr, son of Mr. and Mrs. Carl (Charlie) Bokenfohr, both of St. Albert were united in marriage.

Dean and Debbie exchanged vows in a double ring ceremony and mass conducted by Father Al Roy.

Vocal stylings were provided by Nelda Schulte accompanied by Marie Schulte on organ and Roger Gervais on guitar.

The lovely bride wore an enchanting white dress of chantilly lace and sequins with matching headpiece and veil. To complete her ensemble she carried a bouquet of orange and yellow sweetheart roses surrounded by baby's breath.

The bridesmaids, Brenda MacDougall, Anne Bokenfohr and Mary-Ann Warren, wore misty orange gowns of polyester knit topped by a jacket of floral woven polyester cotton voile and matching hats. They each carried baskets of orange mums and daisies accented by baby's breath.

The groom wore a cream vested tuxedo with co-ordinated shirt and tie. His boutonniere was a sprig of the bride's bouquet.

The attendants, Joe Schryer, Gary Bokenfohr and Kurt Bokenfohr wore brown vested tuxedos with co-ordinated shirts and ties and yellow boutonnieres. Brian Warren, dressed in the same attire as the attendants, acted as usher.

Linda Behiels (sister of the

bride) gave the First Reading and Shelagh O'Hara (close friend) gave the second reading before the gospel. Then Mary-Ann Warren, (the bride's sister) read the intentions at the service.

The mother of the bride wore a beautiful yellow guiana jersey gown with flowing cape and matching jewellery, and an orange rose corsage.

The groom's mother chose a lovely blue gown of polyester crepe with voile butterfly sleeves and matching jewellery, accented by a pink rose corsage.

Following the service approximately 200 to 300 friends and relatives enjoyed a delicious banquet at the Club Mocombo followed by a dance with music provided by the Capris. The guest book was ably handled by Arla Bokenfohr, sister of Dean. Congratulatory wires

were read by Mr. Jim Behiels, brother-in-law to the newlyweds, who was master of ceremonies. The toast to the bride was proposed by Bill Warren, brother of the bride. Special guests included Mrs. Martha Kohlman, grandmother of Dean from Provost as well as great uncles and aunts - The Siebens' from Chilliwack, B.C. and Calgary and the Reids from Alberta Beach; aunts and uncles from Provost, Hughenden, Iron River, Calgary, Jarvie, Hardisty and Grande Prairie; and friends from Zapata Texas, and Mobridge South Dakota.

On Sunday the gift opening took place at the Bokenfohr farm with approximately 100 guests attending, after which the couple left for a honeymoon in Montana. The couple are making their home in Brooks, Alberta.

8 ducks per day limit

The Fish and Wildlife Division of Alberta Recreation, Parks and Wildlife reports that Alberta waterfowl hunters will continue to have the opportunity of an eight ducks per day bag limit as they have had in recent years.

The primary consideration

in reaching the eight ducks per day bag limit decision was to help ensure an adequate breeding duck population next spring. The size of next spring's breeding population is largely determined by the size of this fall's duck flight. This year, duck populations have been

low because of continuing poor breeding habitat and poor production.

Mr. Kerr added that the size of the duck harvest is not a significant factor in next year's breeding population as increased fertility balances natural and hunting mortality. Next spring's water conditions are the key to determine next year's fall flight. If there is ideal breeding habitat with plenty of water and a low number of breeding ducks, reduction in harvests may then be war-

anted.

If the duck harvest is high (depending on fall weather conditions) and if next spring's water conditions are excellent, Alberta could have too few breeding ducks to match available habitat. If this situation occurs, then Alberta's duck hunters could face bag limits restrictions to perhaps three or four ducks next year.

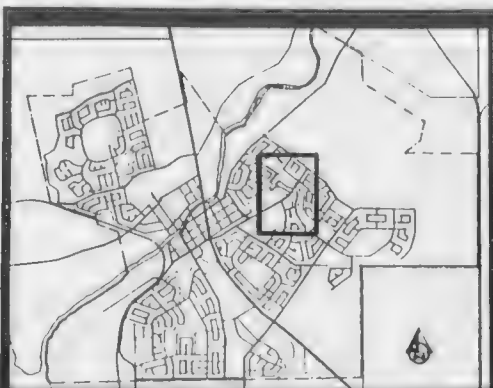

If the fall duck harvest is lower than normal (which is likely with a low fall flight), and next spring's water

conditions are normal or better, increased production will result and a change in the bag limit may not be required next year.

Mr. Kerr states retaining the eight bag limit will also afford Alberta biologists the rare opportunity of measuring the impact of similar bag limit regulations on various levels of waterfowl populations.

Waterfowl managers suggest bag limits changes are not effective unless severe reductions are made. They are also not effective if hunting and natural mortality offset each other. The eight bag limit will provide the kind of data needed to manage waterfowl populations throughout the flyways and in the best interests of all Albertans.

A public hearing on the proposed by-law will be held in the Council Chambers, City Hall Annex, on Tuesday September 6, 1977 at 8:15 p.m.

Written representations concerning the manner in which any provision of the proposed by-law may affect him will be received by the Municipal Secretary until 12:00 noon Friday, September 2, 1977. Persons wishing to make oral representation may do so by appearing at the public hearing.

Breakdown of life insurance policy holders

Most Canadians who apply for life insurance get it; 98 per cent of applications for individual life insurance are accepted.

Of the two per cent declined in 1975, 28 per cent were rejected because of heart disorders, 43 per cent because of other serious health problems, and

the rest for other reasons. Only one-fifth of one per cent were turned down because of dangerous occupations.

The high rates of acceptance show the success life companies have had in solving the problems presented by two conflicting underwriting objectives. On the one hand, companies wish to provide the benefits of life insurance to the greatest possible number of Canadians. On the other hand, because people differ in health, occupations and habits it would be unfair to the majority if the greater risks facing some people were not taken into account at the time applications are assessed.

The solution has been two-fold. First, extra-risk policies with higher premiums than normal are offered to people who cannot qualify for policies at normal premium rates.

Secondly, acting in conjunction with advances in medicine and in job safety, the companies have provided life insurance at normal rates to a substantially increased number of Canadians who would previously have had to pay higher premiums or not been able to get life insurance at all.

SENIOR CITIZENS

The first overnight trip taken by St. Albert Senior Citizens Club was a great success.

They set out for Drumheller on the morning of Wednesday, August 17 and returned, tired but happy, on the evening of August 18. If there's anything worth seeing in Drumheller that they missed they'd be very surprised! Russell Naves who organized the excursion did a very efficient job and all the

arrangements he had made went smoothly. Someone else who contributed to the seniors' enjoyment was Ed Savoie, their genial bus driver and St. Albert's Citizen of the Year a few years back.

There was a good turnout for the choir practice on Monday, August 15 but there's always room for more. Bertha Kennedy will welcome new members at the practices which will be held regularly on Mondays at 1:30 p.m. in the Centre

(north of the curling rink). Note: There must be men among the seniors who can sing. But where are they?

Seniors are reminded of the Club's annual picnic which will be held at the Centre on Wednesday, August 24. Be sure and get your name on the list on the notice board if you plan to attend so that Ellen Liptak and Louise Borle will know how many to cater for. A light lunch will be served after the games (and visiting) which start at 1 p.m.

At the well attended card party held on Tuesday, August 16, Lily Millar and William Kinshella won the first prizes and Mary Benoit and Dan Richardson took home the consolation prizes. Cards and bingo are played on alternate Tuesdays so there will be cards on Tuesday, the 30th and bingo the following Tuesday, September 6. The prizes are small but the occasions are purely social and refreshments are served so that people can have a chance to visit and get to know each other.

After the card party on August 16, the seniors had a surprise visit from the children attending the Flagstone Crescent playground who gave a stirring performance of a play depicting the arrival of the early settlers in the area. The play received a good reception from the seniors who enjoyed both it and talking to their young visitors afterwards.

Anyone interested in joining the club or in hearing about its activities can phone Dan Richardson at 458-5229.

On Saturday, August 27, the "almost new" shop will be open at the Senior Citizens Centre from 1 - 4 p.m. Bernie Vaugeois, also in charge of this project, will welcome assistance before, during and after. Phone her at 459-6273 if you want information.

which will be put in every mail box during the first part of September. This will outline the fall programs.

Anyone interested in taking either Yoga or Introduction to Bridge should note that these courses start earlier than most - bridge on September 12 and Yoga on September 1. Registration forms are included in the brochure and for these two courses they should be returned immediately.

PLAYGROUNDS

Leaders and children alike were sad when the playgrounds finally closed on Friday, August 19. Wind-up parties were held following the big parade held in the morning which was the grand finale of the program.

"ALMOST NEW SHOP"

Mums shopping for back-to-school clothes might find what they've been looking for at the Senior Citizens Centre on Saturday, August 27. The "Almost New Shop" will be open there from 1 - 4 p.m. and the Seniors will welcome customers and contributions alike.

Donations of children's clothes outgrown by their owners will be particularly acceptable. So, mothers, check your children's closets. If there's anything in there no longer in use, drop them in at the Centre. Or phone Bernie Vaugeois at 459-6273 and make arrangements with her.

Although the emphasis at this time is on children's clothing, all kinds of things will be on sale on August 27. Drop in - you never know your luck.

Francoise Gamache [664 Cold Lake, Alberta]; Evelyn Elder [533 St. Albert, Alberta] and Anita Kopala [217 Princeton, B.C.] perform the sit up exercise during the warm up period prior to the sports program. There are more than 500 Cadets at air cadet summer camp at CFB Penhold, Alberta.

Swimmers to compete in Summer Games

Seven swimmers from the St. Albert Sailfish Swim Club qualified for competition in the Summer Games, to be held in Red Deer on September 3, 4 and 5. At the time trials in Spruce Grove on August 7, Claudette Larocque, Carolyn Wilhelm, and Sheila Dick recorded times low enough to qualify as individual competitors, while Cassi Tate, Norm Odinga, Jack Bakker, and Ian McNeill earned places on

the regional relay teams. These St. Albert swimmers join other 13 and 14 year olds from the north central region, which extends from Whitecourt to Hinton to Leduc. The regional representatives will be coached by Peter Odinga, who is the coach of the St. Albert club. Governmental subsidy provides bus service and accommodations for Summer Games participants.

Bantam Soccer into fall season

The Hercules Bantam Soccer League has begun the fall round of its season.

Games last week saw the Bullets (third place finishers in the spring round) emerge with two victories. Monday, August 15 they defeated the Cannons 5-3 in a closely played match and on Wednesday two late goals allowed them to drop the Arrows 7-5.

The Rockets and the Can-

nons both opened their fall season with one win and one loss each. After losing to the Bullets Monday night the Cannons came back with a tight 3-2 win over the Rockets on Wednesday.

The Rocket win came over the winless Arrows 6-1 on Monday.

Player of the Week honours go to Murray Brown of the Bullets for picking up 10 points in two games. Murray

was in on all seven goals in Wednesday night's win over the Arrows. Included in the 10 points are four goals and six assists. His scoring outburst lifted him into third place in the scoring championship just one point behind second place Willy Conte of the Cannons and six short of scoring leader Ian Kay of the Rockets. The leader at the end of the season will receive a trophy donated by Dieter Knobloch.

The two top clubs following the fall round will advance to a final sudden death playoff on Saturday, September 24. The winner of this game will capture the league trophy.

A challenge match is in the make for an Allstar team against the bantam rep team - Helmut's Masonry coached by Herman Kochan. The rep team defeated the Allstars 6-0 in a game played earlier this year but the Allstars feel confident they will put up a much better showing this time.

Another exhibition game is slated against a city bantam squad but final arrangements are not as yet complete.

Playboys win Sturgeon Fastball Crown - their 4th in five years

Stony Plain Playboys shut out Devon Stingers 2-0 Wednesday night to win the "A" division playoffs in the Sturgeon Men's Fastball League. Playboys took the best of three series in two straight games after bombing the Stingers 10-1 in the opener.

The win for Stony Plain was their third in a row and they have now won the league title in four of the last five years.

The Playboys have been the most consistent team in the league all season, winning 23 of 24 games and keeping control of the league all season.

In the "B" playoffs Spruce Grove KC defeated Calahoo Chiefs 4-1 Monday night and took their series in straight games having won the first game by a 4-3 score in extra innings.

In the Playboys/Devon series, Stony Plain came up with a sound defensive style of play and shut out Devon in the final game. Gerald McGinn was the winning pitcher allowing five hits while striking out seven. Stingers had the same number of strikeouts that losing pitcher Brian Monaghan had, Monaghan only allowed two hits but both came in the sixth inning, and coupled with a walk and an error, they both produced Playboy runs.

In the "B" final the KCs came up with a pair of wins with Dave White on the mound, while Art Stevenson was on the mound for Calahoo in both contests.

The fastball season is rapidly coming to a close with only a couple of more weekends of tournament ball to be played.

The final event of the year in the Sturgeon Fastball League will be the first annual league banquet which

is all set for Spruce Grove September 17 with all 14 league teams taking part. Annual league player trophies

will be presented at the supper and dance. All team members have tickets available.

St. Albert swimmers triumph

[Due to errors in last week's Gazette write-up of the Zone B Regional Swim Meet, it has been re-released for this edition. The Gazette extends its apologies for incorrect statements or facts omitted in the previous account].

For the eighth year in a row, the St. Albert Sailfish Swim Club carried home the St. Albert Challenge Cup trophy as winners of the Zone B Regional Swim Meet, held the weekend of August 13 at the Bonnie Doon pool.

In addition to the trophy for the best team, St. Albert swimmers Susan Otto and Scott Flowers earned trophies as the best individual male and female swimmers. Scott broke provincial records in individual medley, butterfly, and front crawl, while Susan broke the existing record in individual medley. Both swimmers came in first place in each of their four individual events. Diane Pass also finished first in her four individual events.

Another provincial record was topped when Todd Forbes swam home to victory in the backstroke. The Gazette had incorrectly attributed this triumph to Scott Flowers.

The St. Albert's team total was 966 points. Spruce Grove offered the most competition to our swimmers, totalling 792 points. Other teams and their scores were Drayton Valley, 371; Edson, 293; Westlock, 195; Hinton, 172; Stony Plain, 166; Devon, 147; Whitecourt, 133 and Barrhead, 71.

Thirty-seven young people from the Sailfish Club swam to first or second place finishes, thus earning the right to compete in the Provincial Swim Meet, to be held in Grande Prairie on August 27 and 28. Those swimmers include Cory Wilson, who at age six is the youngest St. Albert swimmer ever to qualify, Todd Forbes, Cameron White, Carolyn Wilhelm, Claudette Larocque, Cathy Colville, Gretel Rachor, Graham Hogg, Gertrude Grieve, Norm Odinga, Jackie Tessier, Carol Burgess, Jack Bakker, Sheila

Dick, Dean Ewen, Megan Hogg, Susan Pearce, Tracey Heron, Andrew Borloi, Carl Sturgis, Dorinda Lunney, Todd Ewen, Carol Madsen, Janet Ewen, Ian McNeill, Kevin White, Cassi Tate, Richard Coyle, Kent Madsen, Pete Odinga, Chris Odinga, Gary Rachor, Ellen Ainsley, Lynda Benko and Carmelle Kirsch.

It is obvious that the Sailfish team's coach, Peter Odinga, did a fine job of preparing our local swimmers for this summer's competitions.

NCABL championship series this weekend

On Sunday, August 28 the North Central Alberta Baseball League will be holding its championship series. All games will be held at Mountie Park in Westlock.

The first game of the series pits league winners Westlock Red Lions against the fourth place finishers the Morinville Manufacturers. Game time is 11 a.m.

In the second game, the Rochester Lions will take on

the Barrhead Broncos, second and third place finishers, respectively.

The final game of the series will see the winners in the first two games do battle for the championship.

All the teams are quite evenly matched and with the added stimulus of a championship series all stops will be out. It promises to be a very exciting day of baseball.

When is winning a race still not winning? The answer to that is when you are in the Edmonton Claimer Club at Westwind Oval. This was the case with the unidentified driver of Car 54, who won the race, but was disqualified for not hitting other cars as is the rule with the club. The eventual winner was Ted Keeland who seems to be developing a feud with Ron Lecocq. Last Wednesday also saw the running of the Alberta Gold Cup for the 100 mph Super Modifieds. Dave Moran outran seven other opponents in the 15 lap feature race. In the trophy dashes, Stock Glen Knoll, Street Stock Wilf Lalonde, Claimer Lloyd Anderson and Super Modified Ron King. Tonight's race card will feature the Mark Ten Western 600 NASCAR race for Super Stocks.

Speedway Park - August 20; Alberta Go Karts - August 21; Motorcycle Road Racing, St. Albert Go-Kart Track; August 24; B division Go-Karts (70 - 75 mph).

Tamer Young lines up a toss at the Frisbee contest held last Wednesday in Lions Park. The contest was sponsored by the National Frisbee Association.

Grande Centre captures memorial

The Grande Centre Northlanders had little trouble overcoming the opposition to win the 1st Annual Harvey J. Doherty Memorial baseball tournament held in Westlock, August 13 and 14.

In the first game Saturday the North Central Alberta Baseball League Allstars came up with a very strong performance in defeating the Altario Club 12-3.

The Westlock Red Lions, helped by some American pitching, topped the Amisk Rampards 9-5 while the Grande Centre Northlanders posted an easy 10-2 win over the Two Hills Eagles.

In the last game of the day the Edmonton Cardinals shut out the Provost Merchants 5-0.

Sunday's semi-final action saw Westlock Red Lions up against the stubborn NCABL Allstars. The game was certainly the best of the tournament. The Red Lions were the eventual winners coming away with a 5-4 victory in the final inning.

In the other semi-final the Grande Centre team blasted the Edmonton Cardinals 17-8 to advance to the final against the Red Lions.

Grande Centre was in command of the game all the

way against Westlock and won the game 8-2.

The tournament play of the NCABL Allstars and the Westlock Red Lions was

proof that the league has reached a point where it is now very competitive in play with top calibre teams from across the province.

Attention all Juvenile hockey players

A meeting will be held August 31, 1977 at 8 p.m. at the Kinsmen Community Centre (Lacombe Park) to discuss 1977/78 juvenile hockey season.

As we have approximately 80 boys eligible and only two or three teams to be made up, everyone is not going to get to play hockey.

Registration forms will be available only at this meeting and only those registered will be able to play hockey. If you cannot attend in person, your parents must attend in your place.

Due to the loss of 15 uniforms, and one set of goal equipment, a uniform deposit is now required and will be refunded at the end of the season.

Registration fee - \$30., deposit - \$20.

This must be paid when you register.

Around Town

Capt. Robert Burns of St. Albert, a former president of the Minor League Baseball Association, former vice president of Lancaster Park Golf and Country Club, and a familiar figure in St. Albert sports circles, has been transferred to CFS Holberg at San Jose, B.C. Rick Schuchard is taking over as acting president of the baseball league.

Kings win Calahoo fastball tournament

Stony Plain Kings won the eighth annual Calahoo Sports Association 16-team men's fastball tournament Sunday with a 11-1 win over Custom Printers in the championship game of the "A" event.

The win for the Kings was their second straight in Calahoo as they won top money last year as well with an 8-2 win over Whitecourt Dahl Tigers.

Kings won top money of

Local athletes to attend Alberta Games

Four St. Albert students all who will be attending Grade 10 this year will be leaving for Red Deer September 3 to compete in the Alberta Summer Games.

They will leave the Percy Page Centre on Mission Avenue at 12:30 p.m. Kevin Sage will be competing in the 100 metre hurdles; Karen Ulrich is in the Women's Pentathlon; Laurie Root will be competing in both the Women's Shotput and discus and Craig Dickey is in the triple jump, long jump and discus.

Kevin and Laurie have been training this summer under the guidance of their Lorne Alken's phys. ed. instructor, Mr. Roger Scott. Karen has been working out with the Edmonton Track Club and Craig has been training on his own.

All four have been greatly helped by encouragement from their parents.

The right to attend the games as competitors was earned in Zone competitions held earlier this summer.

Telecasts of the games will be carried on most local stations either September 4 or 5.

\$500 while the Printers had to settle for \$300 which was the same amount that Calahoo Chiefs won for winning "B" event. Stony Plain were undefeated in their four games. They defeated Calahoo Chiefs by an 8-5 score Saturday, and then took out Onoway Royals 3-0 before upsetting Stony Plain Playboys 5-1 in the semi-final. Playboys recently won the 14-team Sturgeon Men's Fastball league crown, knocking off the Kings along the way.

The final game was no contest from the second inning on, when winning pitcher Cameron Rae had a grand-slam homerun to put the Kings out in front 7-0 and they never looked back. The game lasted only five innings Custom Printers only run came on a four bagger by catcher Ron Aldrich in the fifth inning.

CHIEFS WIN "B" EVENT

In the "B" event Calahoo Chiefs lost their opening game to the Kings Saturday by a 9-7 score but were undefeated Sunday, with three wins including the final which they won by a 4-3

score over St. Albert Nu West A's.

Chiefs beat Fox Creek 5-2 Sunday morning with Ed Kachowski on the mound and then handled Fort McMurray Byers 14-1 in five innings to reach the final against the A's who had wins over Fort McMurray, and the Sting.

The final was the best game of the day with both teams evenly matched. With the score tied 3-3 in the sixth inning Calahoo pitcher Art Stevenson hit a homerun over the centrefield fence for the winning run. Stevenson also struck out 11 A's.

Losing pitcher Wilf Thibault had three strikeouts, and teammate Wayne Eros scored a homerun in the first inning.

LADIES FASTBALL

Fort McMurray defeated Clymont in the final game of the "A" event in the 12-team ladies fastball tournament while the "B" event was won by Whitecourt with a win over Don Bee Printing.

Ladies chairman Angie Moellmann has already started on a mammoth ladies tournament for the May 24th weekend next season and

any teams wishing to enter may contact her at 967-2398.

Once again the Calahoo Sports Association are to be congratulated for putting on a first class tournament, with

the roast beef supper served by head chef Kenny Coyes, being just out of this world.

Tournament chairman Emile Berube and his grounds crew had to put up

with a little rain Saturday night and Sunday morning, but there were very few complaints, with the final games being played under perfect conditions.

Members of the Calahoo Chiefs fastball team, "B" winners in the Calahoo 16-team fastball tournament held last weekend. Top row, left to right: Emile Berube, Ed Kachowski, Art Stevenson, Stub Berube, Russell Letendre, Roger Berube and Blair Iseke. Front row, left to right: Erwin Rothweiller, Robbie Werle, Sam Quintal, Greasegun Berube and Mike Mitchell. Missing from the picture is Larry Mitchell.

Sportshop Barons to hold hockey camp at Parkland

The Parkland Arena will be the location for the Sportshop Barons second training camp of this season beginning September 4 at 1 p.m.

Parkland Arena is 1/2 mile north of Highway 16 on the Winterburn Road.

The camp will be attended by some hold-overs from the first midget camp currently being held in the Londonderry Arena. The camp is open to any players not attending the first camp.

The Parkland camp will run a total of 14 hours ice time and will last until Tuesday, September 13.

A fee of \$25 per player will be levied to cover the cost of ice time which must be born by the team.

Nineteen positions are open on the Midget 'A' travelling representative team. The club plays in the North Central Midget Hockey League which they won last year. The team is also the defending Provincial 'A' champs as well as a finalist in last year's Alberta Wrigley Cup playoffs.

The early start this year is intended to give the club a shot at representing Alberta in the national Wrigley finals to be held in Montreal late in January.

Coach Jeff Armstrong is hoping all midget aged hockey players will try out for the team as there is a possibility that a second travelling team will be formed. Knowledge of available talent will allow organizers a chance to start the second team with as little delay as possible in order that it be ready for the beginning of the hockey year.

The other teams playing in the North Central Alberta League are: Red Deer,

Camrose, Wetaskiwin (Provincial 'B' champs), Drayton Valley, Leduc, Fort Saskatchewan, Sherwood Park, Stettler and Ponoka.

All interested players attending the camp should be dressed and ready to hit the ice at 1 p.m., September 4.

The Barons already have several exhibition games lined up for late September and early October.

Registration fees should be made payable to Jeff Armstrong. He may be reached after hours at

469-6357

Following is a list of training camp ice times at Parkland:

Sunday, Sept. 4, 1 to 3 p.m., Monday, Sept. 5, 7:15 to 9:15 p.m., Tuesday, Sept. 6, 9:15 to 10:15 p.m., Wednesday, Sept. 7, 8:45 to 10:15 p.m., Thursday, Sept. 8, 7 to 8:30 p.m., Saturday, Sept. 10, 9:15 to 11:15 a.m., Sunday, Sept. 11, 1:30 to 3:30 p.m., Monday, Sept. 12, 5 to 6 p.m., Tuesday, Sept. 13, 5:15 to 6:15 p.m.

"Wilderness Wisdom"

with Wayne Calloway
No. A 64

Dear Wayne - I know the black bear can climb trees, but I have heard the grizzly cannot. Is this true?

Dear Jake - Yes, generally speaking. As a cub, the grizzly is able, and often does climb trees. At maturity they are unable to climb due to the stiffening of their wrists.

Angered grizzlies have been known to go short distances up a tree which had low hanging and dense limbs by using them as a ladder. It is generally accepted, however, that grown grizzlies cannot climb trees.

Dear Wayne - What is a good method of waterproofing a canvas tent?

Dear Ed - While new canvas tents are practically all water repellent, with age and use they may need additional treatment. You can purchase ready to use paint-on or spray-on waterproofing at a reasonable

price. Just follow directions on container.

If you insist on your own formula, there are several satisfactory methods. One is to buy a block or two of paraffin. These are low in cost and easy to find. Spread the tent on a flat surface and rub a film of paraffin on the fabric. A warm iron pressed over this will embed the paraffin into the fabric. That's all there is to it.

Dear Wayne - How good are collapsible fishing rods?

Larry L.

Dear Larry - There are some good collapsible rods on the market, most of which push into the handle like the antenna of a portable radio.

This type rod serves a definite purpose for the travelling fisherman with limited space. It is most often used by the traveller whose primary purpose is business or something other than fishing, and packs the rod in case the opportunity presents itself.

It is doubtful that the collapsible rod will satisfy the die hard fisherman's likes as well as his favorite pole will. The fisherman who has sacrificed considerable time and expense to carry out a fishing trip will most likely make arrangements to bring his tried and true favorites along.

You don't drive your car on sidewalks, do you? Don't operate your boat where people are swimming, either. Skillful boating is most admired when everyone concerned is safe. This is a Red Cross summer safety tip.

LOUNGE SUPERVISOR

The ST. ALBERT CURLING CLUB is accepting applications for the position of:

KEYANO, the official Commonwealth Games mascot, is seen here sharing an afternoon bike ride with Kate Zitzko of Edmonton.

A bad bill

The Federal Government and their hordes of public and private economic advisers apparently never give any thought whatsoever to the ultimate effect of continually loading the people in the work force in Canada with added burdens. The working people are of course the people who keep the country's economy going.

Bill C-49 is a case in point. This amendment to the Canada Pension Plan would allow a person to drop out of the work force for as long as there is children under the age of seven in the family, and still collect as large a pension as another individual who works and pays premiums for a lifetime of work.

The amendment clearly moves away from the original concept of the CPP which relates pensions directly to the amount contributed out

of earnings. This change in concept has caused Ontario to vigorously oppose the plan, and in fact that province says it will exercise its right to veto and prevent implementation of the amendment.

And Ottawa says the most important issue confronting Canadians today is holding the country together.

Ottawa is now trying to do the Canada Pension Plan what it has already done to the Unemployment Insurance Plan - that is forget the originally sound and businesslike concept and use the plan for providing more and more social benefits. If this is the way to go, then the whole country should pay the costs via the federal government's general revenues. Why should the workers and employers take the burden?

The new amendment pro-

posal is also discriminatory. What about a mother who believes that a child needs a mother at home after the age of seven - or the woman who goes directly from education into raising a family - she would not have the right to drop out the accumulation of months of low or zero earnings when calculating the size of her eventual earnings, in the way a person who leaves the work force to raise a family may do.

The Bill is presently before the Senate which should pay close attention to these discriminatory features, and consider also why the government should proceed with

a Bill which Ontario says it will veto. Because Quebec has its own pension plan, Ontario has more than 50 percent of the population affected.

Despite national public debt and consumer debt both in the high billions and rising, the federal government would dilute the practical concept of the Canada Pension Plan in favour of more so-called "Social Benefits," adding to the inflation which, if unchecked will itself dilute the Canada Pension Plan payments severely by the time the worker is eligible to collect his pension.

Around Town

An unexpected visitor made a death-defying appearance at the reception of Ken and Lia Love, who were married last Saturday. During the dance, a close friend of Count Dracula winged his way into the Community Hall, and held the crowd in awe and fear, as he deftly demonstrated his amazing agility in the field of flight,

easily out-manoeuvring his would-be captors, who attacked the little bat with such handy weapons, as a broom, a tablecloth, and a lacy shawl. Finally tiring of the sport, the tiny visitor exited stage right to continue his nightly quest for food and refreshment.

Large lot, quiet crescent. **VIVIEN CHRISTENSEN your Melton hostess in attendance.** Please call 426-5880 pager #337, 484-1350 or 459-5595.

Pavement to Yellowknife in future?

Transport Minister Otto Lang recently released the report of a study on the costs of moving a wide range of consumer and industrial goods into five Mackenzie Valley communities.

The \$30,000 study, commissioned by Transport Canada and carried out by MPS Associates and Canalog Logistics Limited, details current transportation rates and considers improvements in transportation facilities and services that could result in lower costs.

The study shows that the rate for transporting groceries in truck load lots from Edmonton to Fort Simpson, Hay River, Fort Smith and Yellowknife is 3.9¢, 3.2¢, 3.7¢ and 4.3¢ per pound respectively. For shipment in less than truck load the rates are approximately double.

The minimum rate for

groceries to Inuvik during the summer barge season is 6.8¢ per pound while the air rate is 31¢ per pound for general freight and 75¢ per pound for priority shipments.

The study also details the effect that improved transportation facilities would have. A paved highway from Edmonton to the four communities that now have road access would reduce costs by eight to nine percent. Trucking groceries to Inuvik on an extended Mackenzie Highway would cost about 7.5¢ per pound while trucking on the Dempster Highway would be at a rate of 12.7¢ per pound for groceries originating in Edmonton and 9.9¢ per pound for groceries

originating in Vancouver and moving via the marine rail link to Whitehorse.

While these costs would be greater than the rate of 6.8¢ per pound using the current barge route, which serves the community during the summer season, year-round access will provide substantial savings in storage and inventory costs.

Use of the proposed Liard Highway could lower rates in the Fort Simpson-Yellowknife area for certain commodities of B.C. origin.

The study determined that a bridge over the Mackenzie River would save \$600,000 annually on the transport of consumer and industrial goods to Yellowknife. These

savings could justify an investment of \$5 million towards the cost of building a bridge. It has been estimated that such a bridge would cost \$20 million. Accordingly, there would have to be

increased freight volumes and/or substantial savings in passenger transport and/or in the transport of freight not considered in the study to justify the investment on an economic basis.

Joe Clark scores in pipeline debate

Joe Clark, much criticized by the press since he took over Conservative leadership, for not stating firmly his policies on national issues, has scored a clear hit with the media for his participation on the Pipeline debate.

Syndicated columnist Charles Lynch said House Leader MacEachen "managed to fuzz the pipeline issue in just about all its aspects," and felt that Clark was considerably more decisive in insisting that any corridor pipeline negotiated with the United States make clear provision for the movement of Canadian gas from the Mackenzie Delta. Clark said that while we must help our neighbour and ally our prime concern must be development of Canadian resources, aiming at self-sufficiency by 1990. Noting that Clark said Canada is in the worst economic shape of her history, the "Sick man of the international economy" Lynch said Clark would go further. With a temporary surplus of gas in Alberta, Clark proposed that a portion of it be allocated to the U.S. now, in return for the equivalent amount of Alaska gas when the pipeline is built. This, he said, would earn much needed U.S. dollars now, and would earn goodwill for Canada that might be parlayed into other benefits or trade deals.

Noting that Trudeau didn't stick around for Clark's speech, Lynch said it might have done him, and the country, the world of good if he had.

The Ottawa Citizen also gave Clark prominent coverage on the pipeline debate, noting that he said there should be no guarantees on the project. "Canada should not be expected to underwrite what will initially be a

purely American project." The Citizen further quoted Clark as lambasting the federal government for inaction in the north. "The fault lies with the government of Canada which runs the North like a colony," he said. "It has been known for 10 years that a pipeline must be built, and now Parliament is being asked to make a decision without a national energy policy, no northern development policy, and no consistent approach to settlement of native claims."

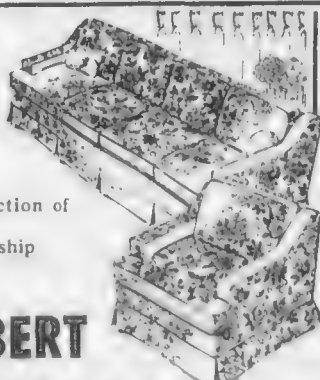

KEITH DAVIDSON

Mr. Bert Wolters, Manager of Century 21 Bell Realty, St. Albert Branch, would like to congratulate KEITH DAVIDSON for being the Top Sales Person for the month of July. For all your Real Estate needs, feel free to call KEITH DAVIDSON - Bus. 458-2993 or Res. 458-1100.

Metis embittered by Sturgeon Lake tragedy

By Stanley J. Daniels, President of the Metis Association of Alberta, at the 49th annual assembly of the Association.

ATHABASCA - Firstly, I would like to welcome you, the Metis people of Alberta to your 49th Annual Assembly. The report I am about to

present to you will not be a report with a lot of good news and positive progress as we have been able to make in the past. This report will deal with Peter Loughheed and his government and broken promises. One year ago this month you voted me back in office in the hopes in getting

our association in a working relationship with the Alberta Government. We have in some areas been able to achieve a certain amount of success as far as housing and trailers.

In your kits you will find letters and memos and proposals written to the governments in our attempt to bring about some justice to a minority group such as ourselves, the Metis people. Most of it has been on not deaf ears but on men who are put into office to serve the people of Alberta but there has been a deliberate undermining by Mr. Peter Loughheed and his government to stop the progress that your association has been able to

achieve over the years.

Your association had an agreement in 1975 for 200 houses, in 1976 for 450 houses in writing that they would be the goals for houses to be built by Alberta Housing Corporation, a corporation controlled by a very rich government and up until last September 47 units built with the excuse that land etc. was difficult to obtain.

Only through the great effort by your association, the executive and Board of Directors and its attack on the Peter Loughheed government on the fires in Atikameg and Sturgeon Lake which took the lives of a total of 11 people, their applications were over a year

along with 438 I previously mentioned. The embarrassment and guilt that Peter Loughheed felt finally woke up and the last opening of the Legislature they announced a \$14 million program for Rural and Native Housing. Last March the question was asked by the opposition to Mr. Yurko, minister responsible for housing, how many houses would \$14 million build? His answer was 300. It is recorded in Hansard. We had the opposition ask this question because in the past the signatures of government on documents to us had little meaning. Hopefully now that its on Hansard which is the official minutes of the provincial legislature that this commitment will be kept.

responsible for his father's, mother's, brothers and sisters deaths and that this government officially had so lightly accused him is now innocent. A few years ago this fire marshal and government agencies would have gotten away with it but not anymore. We now have native leaders and organizations to protect each others rights whenever possible.

Your executive met with Premier Loughheed, Mr. Bogle and Mr. Yurko in February and at that meeting we presented a proposal to the Premier for the expansion of the school lunch program and were assured that the expansion would go into seven or eight communities

HURT, DISILLUSIONED

The February meeting I walked out, hurt disillusioned, not in a huff as indicated by the press but more determined to find a new approach with Peter Loughheed and his government. Mr. Loughheed asked me on two or three occasions to trust Mr. Yurko and Mr. Bogle and continue working with them and if I didn't that they would attack me in the press and make it look like I was responsible for the deaths in the fires. Because Mr. Yurko said if I had requested trailers for the Badger and Laboucane families he would have had the trailers there within the week. Ladies and gentlemen, how would I be able to tell where or which houses were going to burn when we have so many match boxes throughout the province that our people are living in.

At the time there were 75 trailers and 215 applications. I had, however, stated in my Christmas message that these fire traps do not recognize when its Christmas time, or New Years or not. On New Years Day I was in Wabasca trying to get propane hooked up to a trailer which had been waiting for some time when fire took place in Sturgeon Lake. I only mention this point because I felt it was my duty at least try to avoid the previous tragedy. The new approach I took to continue reminding Peter Loughheed and his government on the promises and obligations in this very rich province was to be in the MLA Gallery in the Legislature every day during question period. Also to have the opposition to ask his government some very concerned and serious questions.

Please Turn to Page 37

YOU CAN'T TELL ME ABOUT DISCRIMINATION

After the Atikameg fire I phoned the Premier Loughheed's office and wanted to point out to him in person the inactive and disgraceful way in which Alberta Housing Corporation was handling the housing program in his command. His Special Assistant, Ian Seph, answered the phone call and asked me what was the purpose of my wanting to see the Premier. I told him that I was outraged by the deaths of six people in those fires and his response to me was, Mr. Daniels you can't tell me anything about suffering and discrimination because I am Jewish.

You will find the letter which I wrote to Mr. Seph after the Sturgeon Lake fire on New Year's day where I asked him to tell me the difference between the gas chambers of Auschwitz and the inferno of a shack in his own back yard. A man so close to the Premier of Alberta in such a high place to respond in that manner is unforgivable and it also gave me a great fear that his attitude might be a reflection of his boss's attitude towards his own people.

Speaking of attitude the Badger fire which appeared in the first page of the Edmonton Journal along with the Fire Marshall's report who works for this government stated that the fire was probably started by a five year old child. This was done without a thorough investigation. Outraged by this statement you will find in your kits an open letter to the Premier and to Jim Foster the Attorney General which explains itself. The inquiry was held on the possible cause of fire. The five year old boy can now grow up into manhood and be assured that he wasn't

Metis

Cont'd From Page 36
NATIVE FIRE FIGHTERS

In your kits you will find a letter to Mr. Don Getty requesting the names of the certified native fire fighters which we understand number about 5,000. You and I know the quality of these native boys and the wonderful services they give in

protecting the forests and the very low wages they receive but the very forests they protect is not for them and their brothers and sisters which we are all so aware. I think the letter clearly states that if the white nurses can get on the picket line and feel that they are not getting a fair enough deal from this government that our fire fighters should have the same right to express their dissatisfaction with the treatment that they have re-

ceived over the years even the conditions that they have to live in is unjust, unfair and unreasonable.

You will also find in your kits a news release to Mr. Lougheed as I left the meeting because of his insistence that I work with his ministers and his threat to attack me in the press as though I could have avoided those fires was a trap.

Firstly, if I was to agree with Peter Lougheed as he recommended would simply

mean that I had forgiven him and his government of being responsible for the deaths in those fires, at no time was I going to turn my back on those two families. A few days after the meeting, the editor of the Edmonton Journal, Mr. Snaddon wrote an editorial where he reams out Stan Daniels, Bob Bogle and Bill Yurko. I read the editorial with interest and decided to phone Mr. Snaddon to thank him for the editorial and that I understood and appreciated what he meant by it. Mr. Snaddon then admitted that he was there at that meeting in the next room waiting to be called in to meet with the Premier, Mr. Bogle and Mr. Yurko. It was a shock to me and then instantly realized that there was a trap. Mr. Lougheed and his ministers had phoned and called in one of the most powerful men and one of the most powerful newspapers, the editor of the Edmonton Journal to help them carry out their plan. But thank goodness, Mr. Snaddon was an honest man and didn't cooperate with them but instead wrote the editorial. Ladies and gentlemen, I am only able to report to you what we have been able to bring to light throughout dealings with this government this past year and my fears are that this is only a small percentage of what could have been found if we were able to get more evidence on the over-all plan to break the promises made by Peter to the Metis people when he wanted to be Premier. The one thing that

we didn't ask for at any time was an increase in the core funds to the Metis Association. The provincial government gave us a 10% increase in the core funds

which amounts to \$30,000. I suspect that this increase was to keep us quiet, but I think that this government has realized now that we can't be bought off.

Alex Forbes, right, of St. Albert's fire department, gets an assist from a colleague during a classroom exercise on the use of ropes.

Militia moves to Griesbach

Units of the Northern Alberta Militia District, now located at the Prince of Wales and Ortona Armouries in the city will be moving to facilities at Griesbach Barracks later this month.

The move, expected to be completed by early September, will provide approximately 500 militiamen and reservists with quarters better suited to their training requirements.

Senior militia and regular officers believe that the new quarters will give the Northern Alberta Militia district a better growth potential than any other militia district in the country.

Units involved in the move are: 8 Field Regiment (RCE); 20 Field Regiment (RCA); 15 Edmonton Service Battalion; 23 Medical Company; Northern Alberta Militia District Headquarters and 745 Communications Squadron from the Prince of Wales Armouries. The Loyal Edmon-

ton Regiment is the only unit located at Ortona Armoury.

The vacated armouries will be declared surplus to De-

partment of National Defence requirements and turned over to the Department of Public Works for disposal.

TO ALL JUVENILE HOCKEY PLAYERS

A meeting will be held August 31st, 1977 at 8:00 p.m. at the Kinsmen Community Centre (Lacombe Park) to discuss 1977/78 Juvenile Hockey Season.

As we have approximately 80 boys eligible and only 2 or 3 teams to be made up, everyone is not going to get to play hockey.

Registration forms will be available only at this meeting and only those registered will be able to play hockey. If you cannot attend in person, your parents must attend in your place.

Due to the loss of fifteen uniforms, a uniform deposit is now required and will be refunded at the end of the season

Revolutionary taxi is long way off

A revolutionary taxi, designed with pollution control and passenger comfort in mind, has generated enthusiasm in most of the transportation world. But don't start waiting on the street corner for one yet.

Engineers at the U.S. Urban Mass Transportation Administration have gone back to the drawing board to see whether the vehicle can be mass-produced, the National Geographic Society says. They hope to continue a project that began four years ago with an allocation from Congress for building "an improved, efficient, quiet, non polluting taxi."

\$1 MILLION PER TAXI

Two American companies -- ASL Engineering, Inc., and Dutcher Industries -- received \$1 million each from the Department of Transportation in 1975 to design the taxi, and in May of last year delivered their versions. Considering the transportation needs of 13 million elderly and handicapped people in the country, the department had specified that the taxi be easy to get in and out of and be able to accommodate a wheelchair along with two other passengers.

"We wanted the vehicle to

carry more than one person," a department official said. "We don't want people to have to crawl over each other to get out."

Specifications also required that the taxi emit less exhaust than present taxis and maneuver more easily in traffic.

The resulting prototypes were tall, boxy vehicles, generally more spacious, comfortable, and safer than taxis on the streets today. Both models had steam engines and were between compact and subcompact car size.

Some independent New York cabbies, who viewed the American designs and models by Volvo, Volkswagen, and Alfa Romeo at a show at the New York Museum of Modern Art, were not impressed.

"They're not practical," said Salvatore Baron, president of the New York Independent Taxi Owners Council. "They're too tall to get into garages and car washes. Besides, they're going to cost too much ... When the federal government gave the grants, they never called us."

However, members of the International Taxicab Association, which represents fleets, made a U-turn in their position on taxi design.

"FUNCTION RATHER THAN FORM"

"The industry, up to the time of the actual review of the vehicle ... consistently accepted the theory that the best opportunities for vehicle design would simply occur as the result of modifications of existing production vehicles," says a recent report by the taxicab association.

"When the review committee examined the prototype vehicles ... they realized there was the possibility of developing a vehicle on the basis of function rather than form."

The association went on to rank the models, finding the Volvo superior. Volvo officials, however, say the model was only an engineering prototype and that they do not plan to mass produce it; Volkswagen is considering building a new taxi with Checker Motors Corporation that might be an offshoot of the VW Rabbit.

The taxicab association is urging modifications in design so that a taxi can be mass-produced at a price drivers can afford. It has suggested a retail price of \$7,000 in 1977 terms.

Blanching in your microwave

It is essential to blanch vegetables prior to freezing otherwise the natural enzymes in the vegetables will change the plant sugars to starches during the freezing time. These vegetables will then taste less sweet and more starchy giving an overmature taste.

Blanching (scalding or parboiling in water) will destroy these enzymes and prevent undesirable changes in color, flavor, texture and nutritive content.

Conventional blanching using pots of boiling water is messy and very steamy. The "cool cooking" convenience of a microwave oven, and indeed some time saving, would suggest that blanching be done by microwave. But, up until now, little printed information has been available.

"Recipes Unlimited Inc." in Minnesota did some testing last summer and published their results in a recent edition of "The Microwave Times". We thank them for permission to reprint their suggestions here.

Tips for Quality Frozen Vegetables;

1. Pick and select vegetables that are at their peak.
2. Blanch and preserve immediately; the quicker they reach the freezer, the sweeter the flavour for later enjoyment.
3. Be accurate with quantities and timings.
4. Have plenty of ice water available for quick cooling. Then, remove excess moisture by spreading the vegetable on toweling before packing in freezer container or pouches.
5. Allow vegetables to freeze as quickly as possible by placing single layers against freezer shelves or walls and in the colder area of the freezer. Once frozen, the packages can be stacked.
6. Date packages and use within one year. After this time, drying and deterioration may be noticeable.
7. Keep the temperature inside the freezer at 0 degrees f. (-18 degrees c.) or below.

Steps to Blanching:

1. Prepare vegetables as you would for

cooking.

2. Measure to be blanched and place in glass casserole.
3. Add water as directed and cover.
4. Microwave as directed in chart. Timings are for 600 to 675 watt microwave oven set at cook, high, or full power setting.
5. Stir halfway through cooking time.
6. Let vegetable stand in covered casserole 1 minute.
7. Empty vegetable into ice water to immediately stop further cooking. Once the vegetable feels chilled, spread on toweling to absorb excess moisture.
8. Package in freezer containers or pouches. Seal, label and freeze quickly.

Chart for Blanching Vegetables

Asparagus, cut into 1 inch pieces, 4 cups, 1 1/2 quart casserole dish, 1/4 cup of water 4 1/2 minutes in microwave.

Broccoli, cut into 2 inch pieces, 1 lb. 1 1/2 quart casserole dish, 1/3 cup water, 6 minutes in microwave.

Cauliflower, cut into flowerettes, 1 med. head, 2 quart casserole dish, 1/3 cup water, 6 minutes in microwave.

Corn, cut from cob, 4 cups, 1 1/2 quart casserole dish, no water, 4 minutes in microwave.

Corn on cob, 6 ears, 12 x 8 inch dish, no water, 5 1/2 minutes.

Peas, shelled, 4 cups, 1 1/2 quart casserole dish, 1/4 cup water, 4 1/2 minutes.

Snow Peas, washed, 4 cups, 1 1/2 quart 1 tblsp. water, 3 minutes in microwave.

Spinach, washed, 1 lb., 2 quart, No water, 4 minutes.

*Be sure to stir or rearrange vegetable halfway through cooking time and let stand covered 1 minute after cooking time.

**To quickly cool corn cut from cob, transfer the cooked corn from the hot casserole to a metal bowl set in ice water.

***After chilling, corn cooked on cob can be cut from cob for freezing or frozen on cob, be sure all air is removed from package.

Japanese baseball team to play in Edmonton

The Japanese National baseball team will play two exhibition games next week in Edmonton against the Edmonton Cardinals on Monday, August 29, and Wednesday the 31st against the Almac Steelers.

Both games are set for Renfrew Park at 7 p.m. with tickets available from Mikes News.

Cardinals recently won the Western Canada Intermediate "A" baseball title with a 9-1 win over Manitoba All Stars.

One of the Cards stars is Wayne Biggs of St. Albert, who is an excellent pitcher as well as a top notch infielder with a good bat.

The Japanese team are undefeated in three games to date on their 12 game tour, and should provide some exciting action for the fans.

INTERNATIONAL CHAMPIONS -- Winners in the 1977 International Holland Bulb Selections, the annual "Miss Universe" of the flowers, included (top left) Carnegie hyacinths which are pure white on a dense spike with a sweet scent that permeates the spring garden; (top right) the allium shown here is called Aflatunense. It is a large globular lilac purple bloom composed of a myriad of star-like flowers. It adds a majestic presence to any garden. (Centre right) this large cupped narcissus with its white outer petals and deep yellow cup edged in orange is called Flower Record. It blooms in early spring. (Lower left) the Darwin tulip, named Sweet Harmony, has a lemon-yellow flower edged in ivory white on a strong, tall stem. Sweet Harmony blooms in late spring. (Lower right) the Parrot tulip called Fantasy, one of the top winners in the 1977 International Holland Bulb Selections, is salmon pink with green stripes on its outer petals. It blooms in late spring.

Landmark saved from demolition

An Innisfail home that was one of Alberta's first museums has been saved from demolition by Alberta Culture's Historic Sites Branch, working with concerned town citizens. Horst A. Schmid, minister of culture, announced that the province has declared the Dr. George Residence a Classified Historic Site.

The gracious home of Dr. Henry George, Innisfail's first doctor and a founding father of Alberta's heritage preservation movement, was hours away from demolition. Town residents had responded quickly to the proposed re-development of the old landmark by bringing the matter to the attention of Alberta Culture just in time. Then Historic Sites representatives arrived with a Stop Order effectively delaying demolition until designation could be achieved. Dr. George was one of the earliest medical doctors to practice in the then North West Territories, later Alberta.

The Dr. George Residence, 5711 - 51 Avenue, was built in 1893. Fortunately, the only alteration to the

original structure has been the addition of a back porch. A wrap-around verandah affords a pleasant view of the nearby lake and surrounding grounds.

Dr. George established a museum in the study of the large home. He collected Indian artifacts, coins, weapons, birds and animals.

These exhibits are now part of the Glenbow collection. An admission of 25¢ helped defray costs. Native peoples were admitted free.

Dr. George was the first president of the Alberta Natural History Society, which had its headquarters at Innisfail.

May traffic deaths increased

Motor vehicle deaths in May as reported to the Alberta Safety Council, totalled 52, one death higher than in May, 1976. This brings the total killed in 1977 to 192, an increase of 7.3 percent over last year.

Accidents at 4,799 for the month are up 12.7 percent from the previous May. Increases were noted in Edmonton with a month end total of 1,475, up 26.9 percent. Calgary reported 1,310 accidents, an increase of 20.7 percent. Medicine Hat, Lethbridge, Red Deer, Wetaskiwin and Grande Prairie also reported increases in accidents. The RCM Police, Camrose and Drumheller reported decreases.

Injuries for the month stand at 965, down 14.5 percent. Within the urban area, 178 drivers, 173 passengers, 59 pedestrians, 35 bicyclists and 24 motorcyclists were injured.

Of the 192 deaths this year, there have been 97 drivers, 63 passengers, 25 pedestrians, 2 motorcyclists, 3 bicyclists and 2 on farm machinery.

There have been 49 highway-railway grade crossing accidents in the first five months this year, resulting in nine deaths out of the total of 192 traffic fatalities. Injuries stand at 20. The majority of the accidents occurred at public crossings where a flashing light bell system was in operation. Vehicles involved included 12 automobiles, seven light trucks, five tractor trailers and two

vans.

The Alberta Safety Council strongly recommends that all motorists review their behaviour at railway crossings. The all too familiar track where no train ever runs; the stop and look when the operator's mind is on other

things and just does not see the on-coming train; or, perhaps, the racing instinct which comes on momentarily; are all serious and irresponsible actions of any motorist. In other words - Drive Defensively.

Hog Market Board critical of packers

The Alberta Hog Producers Marketing Board reports that for the week ending August 18, only 35% of the normal weekly hog run was sold. Five of the eight federally-inspected hog slaughter plants refused to buy at prices the Board notes were among the lowest in Canada.

A table of comparative producer returns per hog show Ontario at \$67.50 per CWT, Manitoba at 62.15 and Alberta at \$62.29, all dressed. Omaha figures are 45.75 per CWT, Peoria, \$46.25 and interior Iowa \$45 all live-weight.

The American market was steady after a modest price drop on Monday. U.S. river market prices averaged from

\$60 to \$63 per CWT; Canadian dressed equivalent. The Ontario market exhibited considerable strength with some Wednesday sales as high as \$72.40.

Based on the Canadian and American hog market conditions says the Marketing Board, it becomes apparent that the processors who refused to buy expect hog producers to accept even lower prices. This is difficult to accept when the Alberta/BC region is 30 percent pork deficient, and the Board points out that hog producers can well remember that the packers did not subsidize hog market prices during the prolonged period of losses in 1974.

What makes the marketing

breakdown even more confusing is that the starting Monday market was established by a U.S. hog export sale. The buyer is known to market pork products back into Western Canada.

The Board is confused that a U.S. Buyer and several Alberta packers could afford the price, but five Alberta processors could not. In addition the buyers who refused to buy ranged from the smallest to the largest in the Alberta market. According to the Marketing Board such uniform collective power raises questions as to whether or not hog producers have ever received a period of prolonged just treatment

4-H campers receive instruction at the week long camp at the James River Bible Campsite. Here instructor Lorne Smart assists Marjorie Bokenfohr of St. Albert; Arlene Arlow of Busby; Kathy Malanchuk of Bon Accord and Victor Uchacz of Morinville. The camp is sponsored annually by Calgary Power and Alberta Power.

District 4 - H'ers enjoy camp

Marjorie Bokenfohr of St. Albert, Victor Uchacz of Morinville, Arlene Arlow of Busby and Kathy Malanchuk of Bon Accord attended a week long 4-H camp this summer.

They were part of a group of more than 55 young Alberta 4-H members who expressed their personal interest in environmental issues by attending a week-long seminar of conservation practices August 14 to 20.

Under the general theme "Five is One" delegates to the 12th annual 4-H Conservation Camp participated in an action-oriented program of conservation studies. Campers were selected from 4-H clubs throughout the province.

Selecting two areas of study for intensive review the campers were guided by experts in each field. The areas included; soils, water, fish and wildlife, range and

forest management.

Situated near here, on the banks of the James River, the camp uses the facilities of the James River Bible Camp. The location is ideal for the camp's program of study, providing a wide-range of environmental conditions for observation and experimentation.

Calgary Power Ltd. and Alberta Power Ltd. sponsor the camp each year in conjunction with the 4-H Branch, Alberta Agriculture; Alberta Energy and Natural Resources; Alberta Environment; Alberta Recreation, Parks and Wildlife and the Olds College.

During the week campers share their experiences and knowledge in group discussions, recreational activities around the camp theme and, at the conclusion of camp, an environmental game.

This sharing continues when the campers return

home. In the past campers have spread the conservation message to fellow 4-H members, classmates and adult groups. They have written newspaper articles for their community newspapers, given public presentations and distributed conservation information.

A camper who makes an outstanding effort to make their community aware of conservation attitudes receives a special award.

The Grant MacEwan Conservation Award is presented to the 4-H member who displays, practices and demonstrates conservation programs learned at the summer camp.

The purpose of the award is to honor Dr. MacEwan, to motivate conservation awareness, to recognize selected 4-H campers and to publicize the camp.

The winner receives a

JIM MACAULEY takes off sod for the customer at the Craigmeadow Sod Farm about two miles north of Namao on Highway 28. The farm is slated to take on the even more glamorous status by the summer of 1979 when it becomes a golf course. Plans for the course are in far away Massachusetts right now. Jim is one of the five owners of the course which will have 13 holes north of the Sturgeon River and five south. Meanwhile sod from the site is getting about; some is going up to Fort MacMurray, some to Grande Cache and across the prairies as well as helping improve landscaping in the immediate locality.

Namao girl attends Arabian show in Mexico

By Norma Crozier
Junior members of the Arabian Horse Club of Alberta held a judging competition at Taber, Alberta in the spring. Four winners of this competition were sent to Albuquerque, New Mexico, to partake in the junior judging competition held in conjunction with the United States National Arabian Show.

Margaret Forest of Namao was one of the Alberta winners who attended. Thirty-seven clubs were represented from the U.S.A. and the Alberta club were the only Canadian representatives. Although they didn't win any prizes they certainly achieved a great deal of knowledge and experience from attending this Arabian Horse show. Congratulations Margaret.

Rev. and Mrs. Harold Black and their children have returned from vacationing in Kelowna, B.C., and regular

church services have resumed at Namao United Church at 11:30 a.m. on Sunday.

Mr. and Mrs. Keith Reed and boys, Mr. and Mrs. John Kok and children and Mrs. Marilyn Robertson and her children all enjoyed holi-

daying at a beautiful resort at Canim Lake in British Columbia.

Lloyd and Nancy Sichkaryk are home from holidaying in Hawaii, they enjoyed lots of sunbathing, snorkeling and touring the Island of Oahu.

CNR applying for authority to remove stations

Canadian National Railways have applied to the Railway Transport Committee to remove the station located in Gibbons. Parties intending to contest this decision at the time of the hearing should file exhibits and other documents (eight copies) with the Committee: The Secretary, Railway Transport Committee, Cana-

dian Transport Commission, 275 Slater Street, Ottawa, Ontario, K1A 0N9;

and two (2) copies to: Mr. H. J. G. Pye, Q.C., General Solicitor, CNR, P. O. Box 8100 - Station "A", Montreal, Que. H3C 3N4.

The hearing will be held at Vegreville in the Provincial Court Building, September 20, 1977 at 10 a.m.

packers

Cont'd From Page 41
in Alberta.

The firms who refused to buy hogs were Canada Packers, Swift's Canadian, Burns Meats, Intercontinental Packers and Capital Packers.

The Marketing Board suggests that producers will remember the support of Gainer's, Fletchers Fine Foods and Grande Prairie Packers.

4-H'ers

Cont'd From Page 41
plaque featuring a bronze sculpture of Dr. MacEwan over a background representing the total conservation theme. In addition, the winner also receives a framed replica of the plaque and \$200's in Canada savings bonds.

This year's winner, Frances Lema from St. Albert, has devoted many hours to the conservation effort. She has written articles for her weekly paper, spoken to her 4-H Club in Villeneuve, started a market garden on the family farm, planted trees and shrubs to act as shelter belts and written a report for school.

She will receive her award at the Alberta Weekly Newspaper Association Convention on September 9, 1977 in Calgary.

To some the Prince Albert satellite station may appear like something belonging in the movie War of the Worlds. Actually, the Station, located 10 miles southeast of Prince Albert, is receiving information on pollution, crop conditions, and other technical data for the western Canada region. It covers an area from Manitoba in the east to British Columbia in the west. A 50 foot disc receives a reading every 18 days. The privately owned station does most of its work on a contract basis for the federal government.

Namao Flower Show draws large crowd

By Norma Crozier
A large crowd filled

Namao Community Hall on Saturday afternoon to attend the annual Namao Flower Show and Tea. The theme this year was "Wonders of the Sea" and a beautiful mural complete with mermaid decorated the backstage while a seagull flew overhead. Girls dressed as sailors served the tea tables.

Flower Show entries were numerous and beautifully displayed, with many entries in childrens classes.

Trophy winners were: Rosa Samis Trophy - Best Dark Glad, Alice McLay; Marjorie Clark Trophy - Best Glad in Show, Alice McLay; Alice McLay Trophy - Best Adult Entry, Charlene Berg; Bertha Speers Trophy - Adult Novice, Eva Berg; Fred McLay Trophy - Vase of four or more flowers, Betty Lou Kindelman; Zaychuk Trophy - Best Fruit Display, Betty Lou Kindelman; Mrs. W.

Craig Trophy - Foliage Plant, Hazel Plumley;

Pat Jepsen Trophy - Best Basket of Flowers, Marjorie Clark; Barbara Crozier Trophy, Best Senior Citizens Entry, Marjorie Clark; Paul Trophy, Best 4H Entry, Cheryl Paul; Pearse Trophy - Best 8 yrs. and under entry - Heather McMillan; Kindelman Trophy - Best Entry, 9-12 years Cheryl Paul; Sarah Bell Trophy - Total points Jr. Classes, Heather McMillan; Barnett Trophy - Best Jr. Entry, Leanne Sim; Grand Aggregate Uniform Trophy, Charlene Berg; Special Trophy - this trophy was presented to Mrs. Faye Middleton for her many years of entering this show.

The door prize was won by Mrs. Lucy Kindelman. UCW president, Mrs. Shirley Ward gave a special thank you to judge for the show - Mrs. Marilyn Robertson.

Legal Locals

By Bonnie Pelletier
Registration at Legal School for old and new students is September 1 at 12:45. This is registration only. The first school day will commence September 6 at the regular time. This is the first regular full day.

LUCY DE CHAMPLAIN WINS ALTA CHAMBER LITERARY ACHIEVEMENT CONTEST

Lucy de Champlain entered a writing contest with the English 30 class on the theme "Oh Say Can You See Canada" and came up with a third prize. Her story was titled "The Game." The short story was fictional and published in a paperback in June, 1977.

Lucy wishes to extend her thanks to the Co-op for sponsoring her trip to Gold Eye. It was there that she participated in competitions in speaking and education and portrayed her talent in the writing field. She thus won a trip to New York, U.S.A., sponsored by Rural Education. Here she participated in education and leadership programs along with numerous other students from other nations and countries. There were students of all races, religions, nationalities etc. A very exciting and memorable trip to this deserving young lady. Congratulations!

BOUTIQUE OPENS IN LEGAL

Donna Ellison has recently opened an Owl's Nest

Boutique in Legal. August 17 she had her opening at her temporary position at Legal Building Supplies. She will be moving her shop later to the Nault Centre, upon its completion. Several people dropped in to browse at the stock of GWG and Que jeans, shirts, sweaters, and jump suits. She will later be receiving childrens' outfits from size 2 on. Be sure to drop in and maybe try something on.

LEGAL CURLING AND ARTIFICIAL ICE COMMITTEE REPORT DANGER!!!

Donations for our new complex are presently at a standstill! There are still many families from Legal and surrounding area who haven't forwarded any cash or post dated cheques, to our canvassers.

Were you missed? Your cheque or money order lost in the mail? Telephone lines cut and doors on your home barricaded? Now, we can understand why we haven't received your donation. But should you happen to have forgotten to give a little financial support to an extremely worthwhile community project, you may contact Denis Limoges or Laurent Coulombe, who will have a receipt ready for you. To date \$35,067.35 has been collected. Our goal is \$45,000 so please help us to achieve it, and make this project a self-operating complex.

Tours every Thursday night 7:30 p.m. to 10 p.m. Bring your hammer.

PROPOSED DEVELOPMENT

SANITARY SEWAGE TREATMENT FACILITY
Pt. of Lot "A" NE 7-54-26-W4

The Council of the Municipal District of Sturgeon wishes to advise all interested parties that a public hearing will be held on September 15, 1977 at 2:00 p.m. in the Council Chambers located in Morinville to hear all submissions or objections to the above proposal. Written objections may be submitted prior to September 8, 1977 to the undersigned.

D. GARY BROWNLEE
DEVELOPMENT OFFICER

THE MUNICIPAL DISTRICT OF STURGEON NO. 90

INVITATION TO TENDER

Sealed Tenders with the words "Hamlet of Villeneuve Sewerage System" marked on the envelope will be received up to 2:00 p.m., Friday, September 16, 1977 at the office of the Municipal District of Sturgeon No. 90 located at 9601 - 100th Street, Morinville, Alberta for the construction of approximately:

1. 6,065 ft. of 2", 3" and 4" sewage collection mains.
2. 11,550 ft. of 4" and 6" force main.
3. 44 sewer services.
4. 47,000 cu. yds. of sewage lagoon earthwork.

Copies of plans, specifications and contract documents may be obtained at the office of the consulting engineers for a deposit of twenty-five (25) dollars refundable when returned.

Each tender must be accompanied by a certified cheque or bid bond in the amount of 10% of the total tender as well as Consent of Surety.

Public opening of tenders will take place at the offices of The Municipal District of Sturgeon No. 90 at 2:00 p.m., Friday, September 16, 1977.

The owner reserves the right to reject any or all tenders and the lowest tender may not necessarily be accepted.

Morinville Memos

By Marg Bentz

The Central Sturgeon Agricultural Society held their monthly meeting on Wednesday, August 17.

Congratulations are extended to Jim Robinson on winning this month's \$200 dollars in the "200 dollar a month club" draw.

The Ag. Society Harvest Fest which was scheduled to be held on August 27 has been cancelled. Renovations are continuing at the arena and curling rink.

Connie Bokenfohr recently spent a five week holiday in California and Nevada. The most enjoyable of the trip being Disneyland and Las Vegas.

REGISTRATION FOR HOCKEY SCHOOL

The registration fee for the hockey school which is being held in Morinville October 10 through October 15, is \$25.00.

Rocky Mountain Hockey School will be teaching boys eight years and over who are interested in attending. With the minor hockey season starting shortly after, this school is of great benefit to our youngsters.

BIKE-A-THON REVENUE \$1,500

Morinville Kinsmen Club held a Bike-a-thon in June of 1977 with the proceeds going towards development of the new park at the end of 99 Avenue and 99 Street.

Approximately \$1,900 was pledged with over \$1,500 being turned in so far. Congratulations are extended to the winner - first prize of \$100 goes to Lenny Gibeault who collected \$156 for his 16 mile trip; second prize of \$50 was won by Tim Quinn who collected \$136.85; and Lorre Platt took third prize of \$25 for collecting \$128.48.

Prize money will be presented to these youngsters at the first Kinsmen meeting in September.

The Kinsmen Club are pleased with the response and wish to thank all those who participated in the bike-a-thon, either by riding or pledging.

LEGION BINGO GETTING UNDERWAY

Legion Bingo will be starting again on September 1 at the Recreation Centre at 8 p.m. with doors opening at 7 p.m. Look forward to seeing you there!

SCHOOL REGISTRATION TIMES

Kindergarten registration will be held on Thursday, September 1 at 1 p.m. in the Yellow School with classes commencing on September 6. Questions can be directed to Simone Chevalier at 939-4512.

Georges P. Vanier Junior and Senior High School will also have their registration on September 1 at 1 p.m., with regular classes beginning Tuesday, September 6.

The new Notre Dame Elementary school has ten-

HALF OF THESE young students are from Quebec and till the end of this month they will be getting a chance to learn more about Alberta and the West.

tatively set September 1 at 1 p.m. as their registration day with classes starting on September 6 at 9 p.m. Grades two through six will attend the new school located in the new subdivision in the southeast end of town.

Kindergarten and grade one children will attend the Yellow School which is situated behind St. Jean Baptiste Church.

KINSMEN PEANUT DRIVE

The Morinville Kinsmen Club will be kicking off the year with a Peanut Drive in the middle of September. Help this worthwhile community organization by enjoying their peanuts!

MR. BOB HOLZER
NEW PRINCIPAL OF
GEORGES P. VANIER

Georges P. Vanier Junior and Senior High School will be having a new principal in the 1977-78 school year.

Mr. Bob Holzer has 14 years of teaching experience; the last four years here in Morinville. After graduating from the Legal High School, Mr. Holzer attended the University of Alberta where he received his Bachelor of Education degree.

Mr. Holzer resides in St. Albert with his wife Simone and their three boys, Michel,

Mark and David.

LOCAL GIRLS ATTEND FIGURE SKATING SCHOOL

Five hard working young ladies from the Morinville Lions Figure Skating Club attended summer skating school at Parkland and Glenora rinks this summer.

The girls passed the following tests: Jocelyn Blackburn "The Blues" from the Senior Silver Dances; Shauna Bland, "Harris Tango" from the Junior Silver Dances; Lise Houle, fourth figure; Debra Noyes "European Waltz" and Foxtrot from the Senior Bronze Dances, and Cynthia Robinson, "Westminster Waltz" from the Gold Dances.

Congratulations girls - keep up the hard work!

Paul and Francoise Froment along with their three children Serge, Colin and Nadine, recently returned from a month's holiday at Bale St. Paul, north of Quebec City. The Froments also visited Francoise's sister Denise Brown in Windsor

and aunts and uncles in Montreal. Good weather accompanied the visitors in their travels.

4H SEWING CLUB

The Morinville Local Recreation Board is interested in starting a 4H sewing club for girls aged 10 and older. Classes would likely start in September if enough interest is shown from girls and also from leaders.

For more information call Rhonda Stapleton at 939-4827.

FARMERS MARKET

With all the fresh vegetables available at such reasonable prices be sure and stop in at the Farmers' Market which is held every Saturday from 10 a.m. until noon, at the Agriplex (outside, weather permitting).

Reader's co-operation in telephoning or bringing in news items is greatly appreciated. Please phone 939-4145 or stop in at 9901 - 99 Avenue.

Morinville boy participates in student exchange

A Morinville youth is learning all about Quebec and Quebecers under the auspices of a Genstar Ltd. student exchange program. Paul Pelletier has joined a group of 48 students from the Western provinces and Quebec taking part of the exchange.

The philosophy behind the program is that anything is possible between friends. This includes understanding different views and cultures, finding out what Quebec is really like, and then showing Quebecers what the West is like. Half of the students are from Quebec and they have been paired with a student varying in age from 14-16 that lives in the Western provinces and who is a son or

daughter of a Genstar employee.

The 12 pictured above are those who will learn about Alberta for two weeks ending August 28. They have already spent two weeks with each other and the Quebec family in that province.

They are Maureen Richardson, Calgary; Christine Cloutier, Brossard, Quebec; Carley Reid, Okotoks; Paul Pelletier, Morinville, Alta.; Louise Morin, St. Hyacinthe, Quebec; Gilles Saindon, Montreal; Mylene Legault, Laval, Quebec; Deborah McFaul, Calgary; Nola Hofman, Nobleford, Alta.; Nathalie Barbeau, Montreal; Kathy Howse, Calgary; and Marie Andree Leblanc, Montreal North.

Morinville H.A.S. closes doors

Submitted by
Sherry Gibeault
[H.A.S. Co-ordinator]

August 19, 1977 was the closing day for the H.A.S. '77 in Morinville. Sherry Gibeault, the co-ordinator for this program, feels that this year was the most successful year yet. A new total of 102 students, ranging from junior high to post secondary school levels have registered with the H.A.S. office this year. These 102 students were placed in 118 different jobs. This is quite different to last years statistics, in which 76 students registered and 66 were placed.

The following people and businesses have hired students this year: Claregreen Development Ltd., Mrs. Pat Benson, Sally Keddie, Sturgeon Regional Recreation, Thibeault School District, Pauline Underwood, Lorraine Pinel, John Kieser, Morinville Agricultural Society, Marilyn Pelletier, Wendy Vranas, Sandra Donnelly, Sandy Kane, Carol Babluk, New West Dev. Ltd., Legal Recreation Board, Bob Hob-

son, Shirley Houle, Fr. Primeau, Gerald Ward, Town of Morinville, Charlene Rousseau, Yvonne Kieser, Border Paving, Louise Dupuis, Reg Austin, Dorothy Daignault, Mr. Cliff McGinnis, Bonnie Shumka, Mrs. Norm Meunier, Cecile Lepage, Denise Hogue, Len-Mor Construction, and Continental Grain.

These people have made H.A.S. '77 the success that it was. Another special thank you goes to the staff of the Sturgeon Regional Recreation office, for providing me with the facilities and supplies that were necessary to run the program. They also helped me by giving many interesting and new ideas to improve the program.

Once again, thank you very much to everyone - including the students - who helped out during the year. I think that H.A.S. is a definite benefit to the town, and I hope the program continues. To Morinville, the town with a future -- Have a Young Summer!!

Sturgeon Regional Rec.

PRIMITIVE POTTERY
PRIMITIVE FIRING
RAKU FIRING

This four-day workshop will consist of potbuilding - September 8, primitive firing - September 22, and raku kiln building and firing - September 28 and 29. For further enquiries contact Sturgeon Regional Recreation at 939-4317.

"PROGRAMS FOR
PEOPLE" TABLOID

The September issue of the Tabloid will be mailed late in the month so if you would like a particular course to be offered in your community, please phone your community contact. Community contacts are active in most communities in Sturgeon. They volunteer their time to assess community needs and then attempt to provide residents with the programs that they want. The "Programs for People" Tabloid is published by the Sturgeon Further Education Council. September 12, 1977 is the deadline for submissions.

HOCKEY SCHOOL

Registration for the Stur-

geon Regional Hockey School, will take place on Tuesday, September 27 at the Sturgeon Regional Recreation office. This school is open to students of the Regional Recreation area who are eight years of age and over. Skating, shooting, passing, puck control and goaltending will be the main areas of instruction.

CLINICS

Sturgeon Regional Recreation will be holding a referees clinic and a coaches level 1 and 11 course in November and December.

BASKETBALL,
BADMINTON AND
VOLLEYBALL

These three activities are going to be the main adult athletic program running in the Sturgeon Regional this fall. Each program will run in three areas, 1. Gibbons and Bon Accord; 2. Morinville and 3. Nmao, Horse Hill and Evergreen. The first four weeks of each course will be set up as basic instruction learning of rules and how to set up league and tournament play.

Mr. Roderick White demolishing the last remaining log building in Cardiff. (Spring of 1977).

Demolishing of partial log barn on former Levi Parker estate, now the site of proposed Cardiff Echoes.

Cardiff Column

The Cardiff Community Club held a barbecue at the home of Gerry and Ethel Ward on August 14. The weatherman co-operated and a goodly number of families were present, though some were gone on holidays.

It was a pleasure to see Mrs. Mary Saunders again who was a former resident of Cardiff for many years, and to meet Mr. and Mrs. Bill Burtenshaw, parents of Mrs. Clifford Shaul. The food was delicious and plentiful including the steaks that were done to perfection by chefs Alan Kegler and Floyd Vollrath.

Recorded background music provided a restful atmosphere and some children and adults enjoyed playing volleyball for a short time. When it became cold and rain threatened all returned home well fed and contented.

Mr. and Mrs. Peter Nouwen Sr. from Kerameos, B.C., were on holiday visiting family and friends and also attended the wedding of Henry Keiffenbeld and Sandra McRae. Besides raising canaries the retired Nouwens now have several species of

pheasants.

Lynda Kilian's mother Win (Machan) from Saskatchewan visited her for a short time helping her with canning etc., and in time for her grandson Aaron's first birthday. A joint birthday party for Aaron and his 72 year old grandfather John Kilian was celebrated on August 19 with family and friends present.

Janet Clark and sons Robert and Jeff have returned from a week's holiday to Calgary.

Mr. Roderick White is presently a patient in Sturgeon General Hospital. Hopefully his stay will be short and we will see him home soon. His daughter Theresa and husband Randy Calahoo have begun construction of their new home here.

Work is steadily progressing at the site of the proposed Cardiff Echoes subdivision. Workmen are busy installing facilities and work has begun on street construction though no building of homes is in evidence as yet.

Family Share of Major Crops Shows Massive Farm Yields

Do you have space enough in your home or apartment for 120 bushels of corn, 40 bushels of wheat and 24 bushels of soybeans?

It's an unusual question, but it serves to help illustrate the massive production capabilities of today's modern farmers.

If last year's U.S. production of just these three major crops were divided equally among everyone in the country, each individual's share would amount to about 30 bushels of corn, 10 bushels of wheat and six bushels of soybeans.

Thus, an average family of four would have a total of some 184 bushels of these crops to store away in their home.

All told, this would be some 5 1/4 tons of harvested crops.

From its share of the wheat crop alone, the family of four would have nearly a ton of flour, or enough to supply the family's needs for some four years.

Today, the nation's farm productivity of just these three crops alone is measured well into the billions of bushels annually.

Corn yields for 1976 totaled 6.22 billion bushels, a record crop and up some

seven percent from 1975.

Wheat production was some 2.15 billion bushels, just about the same as 1975.

The soybean harvest was 1.26 billion bushels, down about 18 percent from the 1.55 billion bushels of 1975.

1977 wheat output drops 228 million

A 1977 wheat crop of 605 million bushels, down 228 million from the record 1976 crop, was forecast Thursday by United Grain Growers (UGG).

In their second production estimate of the year, market analysts with the prairie grain co-operative said wheat expectations had deteriorated 45 million bushels from their early July estimate.

The probability of record yields in Manitoba were negated by dry subsoil

moisture in southern Alberta and west central Saskatchewan, traditional wheat growing areas.

United Grain Growers forecasted red spring wheat yields of 23.2 bushels per acre, down slightly from the 10-year average of 24.1. Yields per acre of other crops, with averages in brackets, are forecast to be: durum 26.6 (22.8); oats 47.4 (48.1); barley 38.2 (38.4); rye 21.5 (20.8); flax 13.4 (12.5); and rape 18.5 (17.1).

(The figures are based on estimated made the first week of August by specially selected elevator managers located at key sample points. The managers were supplied with 1976 seeded acreage figures from the Canadian Wheat Board, and were asked to estimate the change in seeded acreage this year and the expected yield per acre. Yield forecasts presume normal growing and harvesting conditions from the date of estimate).

Using Statistics Canada estimated 1977 seeded acreage figures and UGG projected yields, the following outputs are arrived at: red spring wheat, 524 million bushels; durum 41; oats 230; barley 428; rye 9.9; flax 16.8; and rapeseed 55.

Harvesting is currently well underway and is 10 to 15 days ahead of normal.

Alberta's matrimonial property law is obsolete - women's rights groups

Submitted by District Home
Economists Pat Doerken
and Laura-Marie Kirchner
MD Building, Morinville

Luck, love and happiness are wished to our fictional couple, Stella and Henry as they venture into married life. They both work hard for several years saving money to purchase a home and acquire material possessions as thought necessary in today's society. Stella eventually drops out of the working force to raise a family.

They strive for many years to fulfill their aims and hopes but then something goes sour. The marriage ends, but the problems continue, for Stella and Henry must now divide the property they have acquired during married life.

This is a fictional situation but not uncommon in Alberta today. When a couple splits, the division of property is often not fair to either the husband or the wife.

Matrimonial property law in Alberta is obsolete. The government has been in the process of changing it for the past six years but as of yet has done very little. When the Legislature opens in October, the Matrimonial Property Bill will be presented again. Present laws must be changed to ensure a just and fair distribution of matrimonial property after a marriage ends.

SEPARATION OF PROPERTY

Today's laws gives each partner claim to property partly or wholly purchased with their money. If there has not been a direct financial contribution in cases of mortgages, payments, bills of sale or land held in joint tenancy by the husband and wife, one spouse will be left with no right to partial or whole interest in the property.

UNFAIR TO HOMEMAKERS AND FARMWIVES

This system of distribution of property is unfair to the person who makes large indirect contributions (i.e. no money) to the marriage. This would include homemakers, farmwives, wives of small businessmen and situations where the only name on the land or house is that of the husband. The law at present does not recognize work as a parent and work in the home as a contribution in deciding ownership of property.

DEFERRED SHARING AND JUDICIAL DISCRETION

Two alternative systems have been proposed to replace present laws. Deferred sharing treats the husband and wife as equal partners. While married, husband and wife own their

property separately. Upon breakdown of the marriage, the property is split in half between spouses. This system sees the work of a wife and mother as a valuable contribution to the marriage. The main disadvantage is that it treats the husband and wife's contribution as equal when they might not be.

In Judicial discretion the second proposal, an individual judge decides what is fair in each case. The Judge looks at the various factors such as income of the parties, behavior during marriage, duration of marriage, etc., when deciding what is fair. This system offers flexibility but is dependent on the judge in deciding if the wife's non-financial contribution is worthwhile.

Women's Rights groups are advocating Deferred sharing. If you would like more information or a petition to circulate in your area, contact the Morinville District Home Economists.

Options for Women, would like to hear your views, write to them at 10006 - 107 Street, Edmonton.

It may never happen to you but if it did, would you be treated fairly? The time for change is now!

Information from: Matrimonial Property. It concerns you. Petition by options for women, Edmonton. District Home Economist - Morinville

Canadian Federation of Agriculture against portions of competition bill

The Canadian Federation of Agriculture has made a submission to the House of Commons Committee on Finance, Trade and Economic Affairs which takes issue with particular points of the proposed Competition Policy.

The brief examines the position of agricultural marketing boards and agencies, and their supervisory and regulatory bodies, in relation to competition policy as well as the proposed functions of the Competition Policy Advocate.

Federation officials say the proposed legislation would make agencies operating under the Farm Products Marketing Agencies Act illegal as well as their government-appointed supervisory councils. The government supervisory councils would not be excluded

because they do not regulate. The farmers' marketing boards are not excluded either because they are appointed or elected by the producers, not the public.

If these two facts are put together, it becomes evident that agencies under the Farm Products Marketing Act, and most provincial boards are illegal by definition. The federation feels this situation should not come about and any new legislation brought forward should be changed to eliminate this possibility.

Federation officials also find unacceptable the appointment of a Competition Policy Advocate who will have the power to take

marketing boards to court. They feel this would institutionalize confrontation within the federal bureaucratic structure and also between federal and provincial governments.

Rather than this proposed set-up, the federation counterproposed that the Competition Policy Advocate be excluded from activities authorized by or pursuant to federal or provincial legislation.

"The issues involved are surely ones essentially of public policy not appropriate to court decisions between conflicting policy criteria and operational policy judgments," the CFA said.

Alberta distillers

During 1976 Alberta Distillers purchased 1.8 million bushels of rye grain from growers located in southern Alberta, making them the largest single purchaser of rye in Canada. This amount is equivalent to 900 boxcars and represents about \$5

million to Alberta growers. In addition, over \$420,000 of malt barley was purchased from Alberta farmers, as well as other non-agricultural Alberta products such as glass and cardboard cartons.

Here is a secondary industry in Alberta that is doing well.

Gordons visit Calahoo Seniors

By Liz McLeod

On another one of our beautiful sunny days, the senior citizens of Calahoo met in the Gazebo at 1:30 p.m. on Wednesday, August 10, for a fun-filled and happy visiting afternoon.

The men unwrapped the newly purchased shuffleboard, which John Thatcher

brought out with his truck, as well as a new brush broom.

Soon after setting it up, it was immediately used and much enjoyed.

There were pleasant visitors at this meeting also. Tom and Irene Gordon, now of Surrey, B.C., were up for the reunion at Calahoo on August 7 and stayed on to

visit with relatives and friends, staying at John and Alice Gordon's in Bilby district.

Alice came for the visit also and then John arrived later, since Tom and Irene would go on to Edmonton to visit with the former Dorothy Rose Flynn.

A former neighbor visiting

with Mrs. Mary Flaherty, is Mrs. Joe Theresa Bourne, now living near Kelowna, B.C. Theresa was happy to come for the visit among the 30 people who gathered this day.

Bridge, cribbage, whist were played before bingo, at which Mrs. Laura Boddez was the capable caller. This day was unique in that Mrs.

Yvonne Marten, Calahoo member from Onoway, won no less than six times, five times alone and once sharing with Mrs. Helen Radjo.

There was no meeting but there was one announcement. It stated that Dennis Woolsey, director of Recreation, Stony Plain, phone 963-2151, is planning a barbecue and dance for

seniors at the Winterburn Redwood Tent and Trailer Park on Wednesday, August 31. Barbecue to start at 6 p.m. The dance is at 9 p.m. and cost is \$5 per ticket. Tickets are available at his office.

When lunch time came around birthday cakes were set before Mrs. Myles Daphne Kerr and Mrs. Tom Rose Callihoo and all rose to sing to them. Jim Verbeek had a birthday also but was absent.

The next meeting of Calahoo Goldenage Club will be held on Wednesday, August 24 at 1:30 p.m. in the Gazebo.

Visitors are always welcomed.

Norris family enjoys reunion

By Liz McLeod

After a delightful day of meeting and visiting friends of their youth, at the Pioneers Reunion in Calahoo, August 7, the Henry Norris family, journeyed to Devon to gather at their mothers home for a barbecue steak supper and more visiting.

Members of Mrs. Norris's family present for the occasion were eldest son, Thomas George, his wife Lois and

daughter Dianne; son Frank, his wife, Margery and daughters June and Susan, all of Edmonton; daughter Dorothy, her husband Jim Delaney and son Scott, of North Vancouver, B.C.; daughter Margery and husband George Petrie and youngest daughter Verna, of Fort St. John, B.C.

Daughter Margaret and husband Ian Pallister of Spruce Grove, Alberta, were absent on holidays but

several members of their family were able to attend namely: Mary Ann, David, Robert and Kelly Pallister, also Shirley, nee Pallister and her husband Ed Koreman and daughter Candi of Camrose, Alberta, and Mary Ann's friend, Charlie Soames of Ferintosh, Alberta.

So, all in all, it was a red letter day from beginning to end, for Mrs. Annie Norris, formerly of Calahoo when she was a valued member of the Women's Institute. During

the Calahoo visit she met friends she hadn't seen for nearly 55 years.

On August 8, Mrs. Helen Quintal, nee Gawron, and her youngest son Lyle, drove to Devon in time to enjoy lunch with Mrs. Norris, the Delaney's and the Petrie's.

Dorothy and Helen have known each other since babyhood in Calahoo and were special friends all during their school days in the district.

So after not seeing each

The Camyn's from Holland visit Calahoo

By Liz McLeod

It was a happy day for the Otto Steinkampf family June 25 when they went to the airport to meet Audrey's girlfriend, her husband and family, Dianne and Tom Camyn - Liesbeth and Robin from Holland, coming to see Canada and Calahoo for the first time and staying in Green Willow district for six weeks.

Making sure this fine family would get to see our beautiful province, Otto, Audrey, Mark and twins Carol and Cindy, took their company for a holiday through Jasper. When they got to Kamloops, B.C., the call came for Otto that his father was rushed to hospital so the others stayed in Kamloops for four days, while Otto and Mark flew to

Edmonton to see him.

When all was well they flew back to Kamloops to continue on their holiday, through the Okanagan Valley, to Osoyoos and Oliver, B.C., where they visited with Leo and Jane Verbeek and family.

Coming home via Calgary, the group went on to southern Alberta as far as Drumheller, before returning home.

Dianne and Audrey, who haven't seen each other since Audrey came to Canada in 1963, had a lot of catching up to do and the two families certainly enjoyed each others company along with Audrey's brother Leo Mulder, who immigrated to Canada this summer and is staying with Otto Steinkampf.

Around Sturgeon

4H club members from Sturgeon spent an enjoyable 11 days as guests of Iowa 4H club members from July 16 to 26. Members attending were: Donna Bokenfohr and Suzanne Ganier, Villeneuve Clothing; Tami Kowalski and Carmen Carleton, Bon Accord Food; Brenda Lamoureux, Gibbons Light Horse; Joanne Strong, Namao Clothing; Pat Briggs and Betty Kushak, Sturgeon Valley Dairy; Michael Uchacz, Dav-

id Kreway and David Uchacz, Bon Accord Beef; Paul Gabbey, Namao Mechanics; Gail Fuhr, Riviere Qui Barre Beef; Heather Mitchell, Terry Vaculchik and Tim Sweetnam, Namao Beef. Mr. Hugh Craig from Namao was club chaperone. The organization committee was comprised of Edith Kowalski, Taras Ferbey from Bon Accord; Hugh Craig and Melvin Clark from Namao.

PROPOSED DEVELOPMENT

SANITARY SEWAGE TREATMENT FACILITY
Pt. Lot "A" NE 7-54-26-W4

The undersigned wishes to advise the residents of the Municipal District of Sturgeon that a Development Permit for a Sanitary Sewage Treatment Facility has been issued on the above described lands consisting of 120 acres, more or less.

Objections to the above proposed development are to be submitted in writing to the undersigned within two weeks (14 days) of the date of this notice.

HOLSTEIN DISPERSAL SALE

FOR MRS. ELIZABETH SWEETNAM
OF R.R. 6 EDMONTON

LOCATION: Take Fort Trail to Highway No. 15 to Oliver Ave. and then turn west on 1/2 block then north 2 1/2 miles. Bldgs. on West side of Road. Or from Gibbons on No. 37 Highway to No. 15 Highway out of Fort Saskatchewan, to Edmonton at Greenwood Corner turn right to service road then west 1 mile and 1/2 mile North - Bldgs. on west side of Road.

WED. AUG. 31/77

Sale Time 11:00 A.M. Sharp Lunch Served

AUCTIONEER'S NOTE: Mrs. Elizabeth Sweetnam is dispersing the dairy and equipment. Her two sons have decided on careers other than dairying. The herd was established in 1920 - one of the first to ship to Palm dairies. The herd has been in D.H.I.A. upwards of 25 yrs. and the A-I program some 24 years. Mr. John Velthuis has been herdsman for 17 years and his dairying effort has been excellent - having had training in the home country of Holland the herd has peaked to a B.C.A. 127 m. & 128 fat. If you need replacement cattle, then Wed., August 31 is your day at the Sweetnam dairy dispersal. See you!

B.C.A. 128 m. - 129 fat 6104 m. - 225 fat [Kgs] (lbs.)
Av. per day 44 p. day Kgs (lbs) Av. yearly Production - 19 to 20,000 Kgs (lbs)

CATTLE WILL BE BLOOD TESTED FOR BRUCELLOSIS

SPECIAL NOTE: 2 FREE DRAWS - One for Holstein Herd Book and one for Electric Appraisal donated by Leader Auction.
